**Samuel:** Greetings to you, my beloved children. I am Samuel.

I think that I should clarify or go a step farther regarding some of the remarks that I made last week, when I explained to you the origin of the word, God. I stated that there would be many new terminologies learned as you move along the Path of Probation and the Path of Discipleship. I did not mean that it was wrong for you to use the term, God, for it does not really matter what name you give to this Great Power, whether you call it God, Brahma, Jehovah or whatever it might be. These are all man-given names.

Man, through the centuries, has used many names in reference to this Great Power. To name something when you do not know what it is, is quite difficult. You will find many different terminologies used by different Masters and Adepts such as, The Spirit of Creation, The Great Spirit or The One Great Power. Your Bible refers to it as God.

Actually, your Master Jesus did not use this term. He used the term, Jehovah, and referred to it in various ways. He knew that this Power or Energy penetrates and lives in all things. He made many references to the Kingdom of Heaven, but He also explained that this Kingdom was within Man himself and was created there by man himself. He knew that He was created by this Power, as are all men. He referred to it many times as His Father which was in Heaven—within Him or within you.

Your Christian religions have twisted this about to mean something entirely different. He used the word, Father, because it was better understood by the people to whom He spoke. They knew that they had to be fathered by someone. They understood that term and so He used it that they might better understand, but many did not.

The journey to see God, Jehovah, or whatever you might choose to call It, will be a long, long one. When I say, "to see God," I mean to understand. Many Masters down through time have been asked to explain or discuss this Great Power and they have refused on the grounds of, "How can a man discuss something of which he knows nothing?."

This answer was given by Buddha. Similar answers have been given by many Masters. Your Master Jesus would not discuss something as sacred as that, when men could have little, if any understanding as to what It was. They understand It's workings in many ways. They know many of the things that can be done through the laws created by this Great Source of Power, but they know not what It is.

Only those in the very highest standing have an understanding of It, for they have become It. This is what is meant by the quotation, "The finite can never understand the infinite until he becomes the infinite." So you see, it is a matter of becoming.

It is not necessary for man to know what It is. He only needs to know that It is, and that It dwells within him or her and within all things, for without this there would not be anything.

It is the results which we know, just as your people know what electrical power or energy will do but they know not what it is. So this should be no concern. Only know that because of It, you are. Call It what you will.

**Questioner:** Will you comment on those who believe that God himself is speaking to them?

**Samuel:** Perhaps this is the only way the information given could be conveyed. You see the Masters often work in the way that is best suited to get an idea or message over. Many cannot accept things as coming from any source other than God himself.

**Questioner:** Do you think that some of them might be aware that this is the case?

**Samuel:** I do not think so, but it does not matter as long as the results are obtained and no harm is done, you see. If Noah had thought that he had been contacted by any other than the Great Supreme Power Itself, he would not have listened and would have never built the boat.

Many of these things will become clearer to you as time goes on. Many concepts will change and a clearer understanding will come as to how the Universe functions.

Now, my friends, I must leave you. I invoke upon each of you my blessings, my love and my peace. I ask the

Great Ones to pour forth their love and their blessings  
upon each one of you as you go forth in your quest for  
wisdom.

Walk the road of peace, love and wisdom. ☸
