These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Oxal: Greetings in the Light, my friends, I am Oxal.

Our contact with you has been one of great interest. Our study of all of you has revealed interesting data. We have made many experiments. We have learned much from you. We are grateful for your cooperation in this.

The time for action has arrived. Each of you has a fair understanding of the situation that exists upon your planet Earth. The needs of earth people are known to you. The earth people are awakening much faster than you realize, dear friends.

Each of you has a mission. These missions start in small ways and your work will grow in intensity as you move in and do your part. Each of you is receiving impressions—impressions that should be apparent to you—each directing you in your path.

We stated long ago in our contact with you that we would not guide or direct you in any way that would be detrimental to your well-being or to your person. This still stands, my friends. We will not cause you harm or be responsible for any harm coming to you. But each of you must make your choice to follow that path which is for you. Establish that determination in your consciousness to do the will of the Father, of the Infinite Being that is directing all things.

You will not be asked to do that which shall destroy the Love or the Understanding which you now have. You will only be asked to do that which shall bring you new, higher and greater Understanding. This does not mean that through your own ego, lack of wisdom, you cannot bring these things upon yourself. But know this, we shall not be responsible for anything of this nature.

Love and Light can only be spread by demonstration, and you can only demonstrate it through Understanding. Many of you who are working in the Light today are developing your Understanding rapidly. For this we are grateful. We are happy and we are aiding you in every way possible.

Keep your life simple, beloved ones, keep it simple. Protect that which you have, that physical body which you possess at this time is important in your work. Protect it. Take care of it through simple living, for in

order to function in this vibration and to do the work that you are to do, you have need of this. So, protect it well.

Giving of your service for the benefit of your humanity shall bring you great returns. Not in the material, but in your spiritual growth, in your understanding. There is so much to be done and such little time to do it, and the workers are few, so the task will be great.

Much is taking place among the leaders of your nations today, much that is not known to any of you. There are forces of darkness and forces of Light struggling to gain power. The power of Light is being enforced or reinforced from the people, and eventually will overcome the power of darkness. But it shall not be without a struggle, for good things are not won easily. Be ever aware of these forces of darkness. Be also aware of the Forces of Light, that you might join them and strengthen them whenever possible. Unite your thoughts to give strength to the forces of Light, for in numbers there is strength.

A great deal has been going on upon the surface of your planet to plant in the consciousness of people the seeds that will make them think, that will make them realize the change must come.

Soon there shall be more activity in your skies. That will again stimulate the interest of earth people. All of these things are gradually awakening earth people to a new consciousness, bringing to them a new realization that they are not alone, that Life surrounds them everywhere, that Space is not an empty void as they have thought.

Some of you here have very important work to do in the very near future. So be aware constantly of your guidance and follow it wisely and intelligently, for you are the master of your ship and only you can guide it.

I leave you now, dear friends, by extending to you the Love and Understanding of my people. I am Oxal. ❧
