August 31, 1974

Yaum: Good evening to you, my friends. It is my pleasure to be with you again. I understand that you were discussing your Master, Jesus, and that you have some questions that you would like to ask concerning the Great One. If I can be of help to you, I shall be glad to share my understanding with you.

Questioner: When my teacher spoke to me the other day he referred to Jesus as your Master instead of our Master. Does that mean that He is from this planet, or this system? Many teachers are not from this system and do not refer to Him as our Master.

Yaum: Jesus came up through your civilization in many incarnations and became a master mind. He did much overcoming in some of His later incarnations. He is the only one in your civilization who has made a complete overcoming. He was even able to transmute his earthly flesh. He passed all of the tests and therefore is capable of assuming the responsibility of this planet. He is the one designated to be the Savior of your civilization.

The word "Jesus," as you know, means savior. He is in reality the Earth Master, or master mind. There were others in your civilization who reached great heights and came at various times to bring the lessons needed at those times. An avatar comes at the beginning of every age to set the stage for that particular age. Also, at the beginning of a new age a great meeting takes place with the heads of the mystic schools on your planet and the One who is to be the example for that age. At that meeting all plans are formulated to carry out what is necessary, for much is to be learned in an age.

You see, Jesus, having been the One who was chosen for this mission, will also be the One who will be responsible for the next age in setting the example and in determining the guidelines. This meeting, in fact, has already taken place as we are very close to the end of the present age. Does this answer your question?

Questioner: It even adds a little to it. Thank you.

Questioner: I have a two part question. Would you give us a definition of a master mind? Do those who

graduate from the Earth plane to Venus have the equivalent of a master mind?

Yaum: To answer the first part of your question, a master mind is one who knows the Universal Laws, knows how they function and how to manipulate them. He is also one of great psychic power who is able to trace his own lifetimes back through his memory. Through his subconscious mind he can trace back all of the activities and experiences of his past lives. Also, he is able to do this for other people. He could look at anyone and see their past experiences and know why they are where they are today. He would be able to heal instantaneously. He would be able to take the laws of nature and speed them up or slow them down because he thoroughly understands every phase of life. It may not seem like much, but this is a great accomplishment, I assure you. So, you see, it is not an easy matter to become a master mind.

Questioner: Will there be any in the new age, around the year 2000, on this planet?

Yaum: Jesus will be here. Now to answer the second part of your question. Having overcome the carnal, the lower self, does not necessarily make one a master mind. There is still much to be learned after you have overcome the physical, or the lower self. Now Jesus had done this in a prior life and had gone on to the higher realms. He had also gone through the realm of soul. He volunteered to come back here and arrived as a master mind. But being in this vibration He had to go through the tests again proving that He was the complete master of the lower self. He went a little further in the physical by going through the process of death and by bringing the body back in a transmuted form. This qualified Him as a master mind. Here and in other realms. He passed many tests that proved his capabilities.

Response: What he achieved then will take us a long, long time to follow.

Yaum: Yes. After you reach the realm of soul there are many tests in which you will have to prove yourself. Even after that there is much study and work to be done to become a full-fledged master mind. There are degrees of master mind as there are degrees of other things, you see. I would not say that Jesus has reached

the ultimate in knowledge and wisdom, for it goes on and on. Infinity is something that takes a master mind, to comprehend.

Questioner: Would you say that Oxal is to some degree a master mind?

Yaum: Yes. Those people would come into the category of master minds because they understand Universal Law to a great extent and perhaps could do anything that Jesus did.

Questioner: Oxal stated that anyone of their people could stand on the surface of our planet and perform any of the “miracles” as recorded in the Bible.

Yaum: I understand that there are whole civilizations of people who could perform in this manner, but they have a great responsibility and are always reaching out to help others to gain higher knowledge and wisdom. For it is only through helping others that we gain for ourselves. The whole Universe consists of those reaching back to help the one on the rung below him. We are all on this ladder climbing up and up, you see. Each one is reaching back to help another, that is if he is growing.

This help can be given in many ways, depending on what rung of the ladder you are standing on. There are those even in the so-called primitive states of life who, in their own ways, are helping someone else. In doing so they are gaining for themselves.

Questioner: Can you tell us how people on other planets live?

Yaum: There are realms of planets, my son, throughout the Universe and they are in all stages of life. Some planets have civilizations which are still in a very primitive state and do not have the things you have. Your planet would be considered primitive by other planets. So to describe life on these planets would take much too long. There are planets above you, my son, where the people live in complete love and understanding. They do not have a profit system as you have. Everything is run on a universal basis where everyone does his part whatever is required of him. He knows that this is necessary as he is taught this from the beginning. Everyone pulls his own weight. They have no poor and no rich, and no one has a desire to become rich, to gain great quantities of material things. They understand the importance of what you call the Golden Rule, doing unto others as you would have them do unto you. This is a rule, my son, that will always be good anywhere in the Universe, because if we do unto others as we would have them do unto us, we do not take advantage of others in any way. The people on these planets would rather give to others than take from them because they understand the Law.

By giving freely without expectation of return, we attract to ourselves everything that we need, so we have no

reason to want what anyone else has. The people on those planets live in a state of peace and well being. They do not have police forces, jails or mental institutions because they do not have anything that brings about the need for these things. So they live happily. Everything they do is done for the good of everyone else rather than for just a few. Until your civilization realizes this and can bring about a system of this type, you will have the conflict that you have all the time.

The have-nots will always want what the “haves” have, you see. When you have all that you need for a happy, peaceful existence, and know that you are contributing your part whatever that may be, there is no reason for you to desire more. You would have no need to accumulate. Would this not be nice, my son?

Questioner: Are you aware of the beautiful lady that visited us. Does her wand have a special meaning?

Yaum: She is one of the many angels or helpers, and they are great in number. They are attracted to certain groups where the members are in harmony and are searching for higher things. They come to add their power and blessings. The object she carried has a tendency to energize individuals. It pours forth an energy that is beneficial in uplifting you spiritually. Depending on your receptivity, it can help to heal and bring you peace of mind.

Questioner: Would this extend to the neighboring communities of Burien and Redmond?

Yaum: There is no limit of distance or time with these energies, it is the same with thought energy. A thought can be received as easily a thousand miles away as it is in this room.

Questioner: She was probably directing it to the other members of the group. Was this possible?

Yaum: Perhaps she was, I do not know what she had in mind. I was not present. They usually have a purpose but I have no idea of what they are trying to accomplish.

Questioner: Are you familiar with the man called Dr. Beter who has been trying very diligently to make people aware of our political situation and the world wide conditions? He is the one who called attention to the fact that our gold had been transferred. I thought you might know of him since he is very active in the financial circles.

Yaum: I am aware of him. He is one who is trying desperately to awaken people to some of the situations that they are facing, and to what is happening in the political world and in the financial world. He is very sincere in what he is attempting to do, but of course this is most difficult because it is hard to reach enough people. So many people are callous and do not pay attention to these warnings. They think he is another one trying to start trouble.

If your people only realized what is happening in your civilization, for instance your inflation. This is going to be one of the main contributors to the breakdown of your civilization the breakdown of law and order, bringing about a revolution. Right now it is affecting your civilization very seriously. It is affecting your family life. People are being strained to meet this situation. They have become so used to luxuries, and it is becoming more difficult all the time to continue to have these luxuries. They have all they can do to get the necessities. Family life is strained to the point where some parents are resenting their children because it costs so much to feed and clothe them.

Resentment is growing between husband and wife. The wife is struggling to make ends meet on what the husband brings home. She is unable to do it and feels that he should be bringing home more money so that they can have more things. This brings about inharmony and causes families to break up. It is also causing mental problems. Crime will increase as long as this situation exists. As inflation gets worse, crime will get worse.

Questioner: Then you would say, generally speaking, that Dr. Beter is correct in his knowledge.

Yaum: Yes, and he is trying to get this knowledge over to the people, but not too many are listening.

Now, my friends, I have stayed my time and I must leave you. I would like to extend my love and my blessings to each of you.

May each of you find peace and joy, and may your way upon the path of Truth be made lighter.

I ask all of the Great Ones to pour forth their blessings on each of us here tonight, and grant that each of us may be receptive to their help and their guidance so that our paths may be made lighter.

Go in Peace, my friends. Go in peace. ☸
