**Teacher:** I greet you in the light of love and understanding.

I should like at this time, to speak a few of the reasons why we have come to your system and to your planet. There are millions of beings at this time, who have come to your aid. We have come from other planets within your system, from other systems and other galaxies. They have all come with one purpose in mind, and that is to aid your system and especially your planet. Your people have reached a critical stage in their evolution. They have not progressed spiritually as they should have.

Scientifically, they have advanced much further and therefore you do not have a balance. Due to the lack of this balance, you are in great danger of destroying yourselves. You have acquired the use of great powers, energies, some of which should not be used at all, and some should be only in the hands of those who are developed spiritually to the point where these powers should only be used for good.

Such powers as your scientists are tampering with today, in the hands of the wrong people, could destroy your civilization. This has happened before upon your planet, my friends, and could happen again. We do not wish to see this happen. We are trying to help you avert such disaster. Also, your planet and your system are entering a new cycle. Your people as a whole, due to the lack of spiritual growth, are not ready to enter the new cycle, the new age.

This will take place. Nothing can stop it, and those who are not in a position to enter the new age, will not be able to remain upon this planet when you are well into this cycle. Therefore, it is doubly important that your people raise their consciousness to new heights, that they acquire new understandings, new truths, that will enable them to enter the new age, which is upon you.

We, realize as do many of your people, that many of your people will not be able to accept the new concepts; they will not be able to move with your planet. These, I should like to state, will not be lost. It merely means that they are slower in their growth and will require more time. They shall be given the opportunity that they need and shall eventually reach

their goal, each in his own way, because man moves ever on and upward, some faster, some slower, but the climb goes on and on. There is also a cosmic reason why we are here. There is certain danger to your planet of which you have no control, no knowledge. We hope and are sure that we can avert this for you. However, I shall not digress upon this.

We love you, my friends, far above your highest concept, your highest understanding. We would do nothing to harm you. Neither will we force you to do anything. We will only suggest. No man can force another to do that which he does not wish to do. We shall help you and guide you, each in his own direction, but only through suggestion. The rest, my dear friends is up to you.

You are the pilot of your ship. No one else can pilot it for you.

They can only aid you in so far as you are willing to let them.

Live only in the now. Now is the only important time. The past has passed and you can do nothing about it. This very moment is the only thing that counts. Live the truth, and the truth will set you free. The time is now. Now is the time. Realize at this moment your oneness with your creator.

We do not bow our head when we worship. We look up and out. Realize that Christ like, within you. Realize that you are God, that you are a part of that One, and that you are expressing for Him. He is expressing through you. You are his expression.

Once these realizations have come in your mind, once you know who you are, then, my friends, truth shall unveil itself to you and all shall become clear.

It has been my privilege to speak with you. I hope I have been of some service. I leave you in the love and understanding of the Infinite Father. ✿
