Samuel: Greetings to you, my friends, I am Samuel.

We felt it appropriate that we should join your group for a few moments this evening to wish our dear sister here well in her new venture.

As you go forth into new areas you will find new friends with whom you can share your spiritual experiences and they with you. For those of like mind will be drawn together regardless of where they are. But always remember that true spiritual growth comes from living, from doing, and from going within, searching within for your true self, and the guidance that knows what is best for you. For you as an individual have your own path. No one else can follow that path and neither can you follow the path of another. Each must find his or her own. There are many ways to His Kingdom and each must find his own path, for that is the only path for you and no other will do.

Each individual has been endowed with certain gifts, with his or her own qualities, gifts or talents and these are for you and you alone and you must search these out, find them and use them. For it is only by your own fulfillment that you will glorify the Father which lives in you.

These things, my friends, are very important to realize, to become you conscious of. Too often we see people of Earth trying to imitate, follow the path of another and they meet only failures and they will continue to, until they realize that they must be themselves. For it is only through being yourself that you can grow and serve in the capacity that was intended for you. Each is important in his or her own right. Each is fulfilling their part when they are themselves and following their own intuitive guidance which comes from that indwelling spirit which is a part of the whole, as you are part of the whole. And one part is as important as another, just as within the physical body, each organ has its function to fulfill, and when that function is not fulfilled, you have inharmony. This is the thing that has brought about much of the inharmony in your civilization.

People are not being themselves. They are not stopping to listen, they are not trying to discover themselves, but rather they are trying to be someone else. They are pursuing avenues which are not

conducive to spiritual growth. They are pursuing the carnal, the materialistic path and in so doing, they are not fulfilling their part in the whole and bringing about harmony, love and peace to your civilization. So we say to all, to all Earth peoples, be yourself, regardless of how insignificant it may seem to you. Yet, by being yourself and doing the thing that you are meant to do, you are bringing harmony and peace and understanding to yourself as well as to the whole.

May the peace and the blessings of all the Great Ones be bestowed upon each of you now.

Go in peace, go in peace, go in peace. ♣
