Anthon: Peace be with thee, my friends, I am Anthon.

Where do you stand today, my friends, in the affairs of your planet?

Do you have an awareness of what is going on about you? How sharp is the awareness that you possess? Are you aware of the immense rapidity of the change that is occurring before your very eyes? Beloved friends, the change is taking place everywhere about you. In your seas, in your planet, in your atmosphere and in your civilization. Mankind is experiencing a great change within himself, yet most of your people are not aware of these changes. Many are not aware in the slightest of the change that is occurring in their own being. Few are aware of the real happenings that are occurring in your civilization. They are only aware of what appears upon the surface, or what certain powers would have them be aware of. Their eyes are blinded by the lack of enough courage to seek out the truth.

My beloved brother, Yaum, in his assignment to aid Earth man, has done a great deal of research among Earth man, and through the powers that he has developed in his growth, although he exists in a physical body, as do you, he is able to extend himself into the far corners of your planet and into the places of great secrecy among thy people, and see for himself first hand, and make note of what is really happening behind the scenes, and if it is your pleasure, I should like to give him the opportunity to tell you of some of the conditions that he has found. I am sure that he would be glad to do this for those of you who are seeking to know the truth. So, beloved friends, I shall withdraw and give him the opportunity to speak for himself.

Yaum: Good evening to you, my friends.

Once more it is my pleasure to speak with you and to share with you my understanding and my experiences. As Anthon has asked me to tell you of some of the things which I found in my investigation of your civilization.

I find, my friends, as I have gathered with some of your peoples in their so called secret meetings. And you know, my friends, I think that some of these people

would be quite amazed if they knew that someone had the power to secretly sit with them in their meetings without being seen or known about. This, do you agree, my friends, might amaze some of them quite considerably?

Questioner: Yes.

Yaum: My friends, you would be amazed if you knew the things that go on behind the scenes, and how little your people know of the true ruling powers that control your peoples' lives. Your so called money system, starting back several years, perhaps 150 years or more, at that time, certain powers began to get control of the money system, and through the years, they have gathered more and more power through their control of money. I have sat secretly in meetings held in Sweden where the great money interests are held, and I have personally heard these men discuss ways and means of bringing about chaos, wars among your people, in order that they might reap the benefits in their sale and production of war materials. These things are carefully planned events. Propaganda to bring these things about, are carefully planned, how they will stir up the emotions of the people, fan them into higher emotional states to false patriotism.

To me, my friends, patriotism is one of the most over played things in your civilization. What is Patriotism? Man only seeks to be free, but I say to you, my friends, there are no free people upon planet Earth. Your people do not know freedom. For when man is free, he is free from all anxiety, he has true peace within his heart. The people of Earth do not have peace within their hearts. In your great country, you have a much higher standard of living than in most other parts of your planet, but this standard has been raised by false methods. It has been raised through a great interest system, and your peoples are becoming more and more chained by this great interest system. And sooner or later, and it looks like it might be sooner, this system must collapse. For a system that enslaves the people, cannot survive, and your people are being enslaved by interest. So you see, my friends, you can have what appears to be a high standard, yet it may be a false standard, for it has not been built upon a solid foundation. You see, my friends, the sad thing about your civilization today and the alarming thing, is that

your scientific development is moving so rapidly, and your spiritual growth, spiritual understanding is moving so slowly, that the balance is way, way off. Therefore, there is great danger. If your spiritual science and your scientific science would move more evenly, if they were more in balance, you would not have these conditions. When man moves too rapidly in the scientific field and the spiritual science lags so far behind, he finds himself in possession of powers that he is not capable of handling, and that is exactly where your civilization stands today. That is why you have the conditions that I spoke of, man, through his greed for power is enslaving the people.

Behind the scenes there is a great movement to try to promote wars among your people without using nuclear devices. A great deal of effort has been put in to developing machinery and equivalent for war that has been piling up, and it must be used so the money interests can gather their profits. But, you see, there is a certain realization among these powers that there are certain dangers, and as long as they could keep the wars on a scale where they only are not affected and that they make their profit, they are happy. But now they have something there that is worrying them, for they know that there is always the danger of nuclear powers being released. And do not be fooled by what you are told. These interests, these people who are in control, know the true dangers of warfare, and they have a great fear within their hearts, for they know full well that once a great amount of this energy is released, that they are going to suffer also, and they do not want this. So great, conferences are held, great discussions on how these things can be handled.

You see, in order to have a war, you have to provoke two sides, and many people who are in high places in your governments of your planet are not sure of the true source of many of these troubles. They, too, are fired by patriotism, they really believe in what they are doing, but they do not have a realization of what is back of these things. It is quite amusing, sometimes, when you can view clearly both sides of these situations. Each is convinced fully that they are right, and the truth of the matter is that neither one of them is right. For you see, my friends, if man had genuine freedom and was able to have understanding of his fellow man and of himself, if he was not, I believe you call it, brainwashed and was taught to think clearly for himself, and to seek truth and understanding, these conditions could not exist. Man would be given a position of rank for his true capabilities and understanding. A man, to have a truly high position in the government of his people, would have to have a true spiritual understanding along with his knowledge of science, of his creation, of his universe and of universal laws. He would have to be a man of true ability, a man of true greatness, and he would hold this position only as long as he displayed these qualities.

There was a meeting of some of the greatest powers, supposedly some of the greatest minds in your world today, not too long ago. These were not men holding positions in your government, but they were men of great wealth, or at least what your people consider men of great wealth, for they have control of great resources in your world, and their powers reach around your planet.

You would be amazed if you could hear the discussions that go on in one of these meetings. They were discussing their holdings in all the countries upon your planet—great factories, great plantations, and well, I could not go into details, it would take too long. As they talked and discussed, the different ones whom they had placed in certain positions of control, and how they were operating and being successful in making great profits from these various enterprises it was amazing how many people were being used for the interests of these few who are in control, and these men have no scruples, so to speak. When a man is not functioning, or doing what they consider to their best interest, or if a man opposes them in any way, they have no scruples about destroying him.

To them money or wealth—in reality it is power—is their only interest. They judge everything by the power it will bring them. Of course, money is only a tool for them to use. But it would really amaze your people if they could really see and hear the things of this type that go on. No man on your planet is beyond the reach of these powers, unless he can develop his own understanding, his own spiritual development, to where he can rise above these things.

Now, my friends, there is a brighter picture, for the time is rapidly approaching when these powers shall crumble. These times are not going to be easy for your people, but it will truly be a period of cleansing, and out of it will emerge a new era of justice where man shall truly be freed, shall truly experience freedom and understanding.

My friends, I think I have stayed my time. I do not wish to bore you with my expounding.

Questioner: Could this power group that you mention, be called the international bankers?

Yaum: Yes, they could be called that. It is an internationally controlled system that controls the money of your planet. I say money, because that is your bartering system. But they also control the industry and resources of your planet.

Questioner: Are the heads of our government aware of this control?

Yaum: Your government is controlled by this power.

Questioner: Are they aware of that?

Yaum: Many are, some are not.

Yaum: Have I improved any in my English?

Questioner: Yes!

Yaum: Thank you, I hope so. Now, friends, I must vacate this instrument. It has been my pleasure to be with you again tonight, and I want to extend my gratitude to the members of this household for welcoming me.

Questioner: It has been our pleasure, Yaum.

Yaum: I wish to extend to each of you my love and my blessings.

Goodnight, my friends. ♣
