

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Nathaniel: Greetings, my beloved children, I am Nathaniel.

Now you have for several months, in your time, been studying the basic Universal Laws as they apply to you and to your everyday living, and how they can affect your everyday progress. Each one of these laws are important to each of you or to anyone if they are to progress on the ladder of evolution.

But I wonder how seriously most individuals consider these laws? If these laws are to be beneficial to you, then you must apply them. If you are to know if these laws work or do not work, then you must demonstrate them. In order to do this, you must study these laws carefully. Make sure that you understand them, get them very clearly in your mind so that you know exactly how they function and what their purpose is.

Everything in this universe is governed by law. Your Scriptures opened with these words, "In the beginning there was the Word." The word is the law. Perhaps this statement would have been better understood had they used the word law, but instead, in the translating of it, it was decided that the word was "God," so they stated it thusly: "In the beginning was the Word and the Word was with God."

In the beginning was the law and the law was with God. At the beginning of every cosmic day the laws are established for that cosmic day, and those laws are in effect throughout that cosmic day and they cannot be altered or avoided. Everything that functions within that cosmic day is subject to those laws. So it behooves each individual, if they want to advance, to study these laws carefully, to read them over and over until they are understood, for you cannot work with a law when you do not understand its function.

So I say to you, my beloved ones, do not take these things lightly, for they are a very important part of your life. They are something that you have to live with, you cannot avoid them, and ignorance of them does not affect or lessen their effectiveness. So, isn't it much wiser to spend a portion of one's time in thoroughly understanding what one has to deal with?

Many of your people are violating these laws, thinking that they can violate them without an effect, that someone else can remove the results of their violations of the law, and that they can be free from the results, but this is a sad misconception. It saddens us that such has become so prevalent among Earth people.

When one becomes so self-satisfied in their activities and efforts that they cannot spend some time in searching for Truth, they will find themselves sooner or later, in difficult situations. Do not let that happen to you, beloved ones. Seek the Truth with an open mind and it will set you free, and this is the only thing that will set you free.

This was stated very clearly by the Nazarene, "Seek ye first the Kingdom and all else will be added." This, too is a much misinterpreted statement by most of your religious organizations. It is interpreted to mean to become religious, to go to church every Sunday, that acknowledging God, is seeking the Kingdom.

But the Kingdom is gained through knowledge and working with the laws, rather than against them. The Kingdom can only be reached through knowledge, through knowing the way. The knowledge will do you little good unless you apply it in the proper manner. Many search this knowledge for selfish purposes, to gain power, prestige and to rule over others. This will work for a period as the knowledge is there and anyone who seeks it will find it.

But those who use it for their own selfish gains and for ill purposes, sooner or later will find that the law reacts, and that they are the ones who are destroyed rather than the ones that they would destroy. Much of this is going on upon your planet today. There is a great search among certain elements of your planet to gain knowledge of these laws so that they might become more powerful, and might be able to have advantage over their so-called enemies. This is one of the quickest ways for a civilization to sink into degradation.

So, beloved ones, keep it uppermost in your minds that it is most important to learn, to know these laws and to use them wisely. If you use them wisely, you will find the Kingdom and all of these carnal or material needs will be added.

Beloved ones, I leave you by extending to each of you my blessings and my love. May this knowledge become a part of you, and may you develop the wisdom to use it to bring to you the spirituality that you seek.

Go in peace, beloved ones, go in peace. Peace, Peace, peace. ☸
