

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Hatton: I greet you, my beloved friends, in the love and light of the infinite creator. I am Hatton.

It has been, as you know, quite some time since I have spoken with you. We are attuned to your location tonight with our Iconiscan. I note quite some change since we last looked in upon you, but I am happy to again be able to speak with you.

We are at this time, keeping close vigilance of planet Earth, for great tension seems to be again building up among your peoples. We sincerely hope that this will not result in extreme violence.

We, of the Confederation, are again attempting to exert influence in the places where it will be most effective in bringing about more harmony, but it is not easy to influence some of the forces or minds upon planet Earth, who have been for several incarnations, greatly under the influence of the forces of darkness. The forces of darkness have gained through the past centuries much power over the people of Earth. Now this power must be broken, and these forces are attempting desperately to hold what they have gained. Several times, within a short period of years, we have been able through our powers to avoid certain situations that were being attempted to be brought about by these influences from darkness. Gradually, very gradually, they have been losing their power over planet Earth, and as planet Earth moves deeper and deeper into its newer dimension in space, these forces shall find it more and more difficult to make their influences felt.

Yet, it appears that planet Earth must experience a certain amount of chaos, as it passes from the old to the new. We shall do everything in our power to ease this situation for you, yet, you have certain debts or responsibilities that must be paid. Very few of your people have any realization of their responsibilities to your planet in these times. They have little realization of how to bring themselves out of the dilemma in which they find themselves. They do not realize that these things are only a result of the past actions and thinking of their own race. If your peoples could but be made to realize the necessity of raising their consciousness, of becoming aware of their responsibilities to their Creator

and to their fellow man. If they could but be made to realize the importance of these things and would then act upon them, how much different would be the transition. Why do people choose a path that is so difficult, when they could so much more easily take the path that is so much more apparent and is so much easier and so much more beautiful?

More and more of our people are coming among you to serve, to attempt to prepare your people for what they are facing. These people are doing this with great sacrifice to themselves, yet asking for nothing in return. They ask only that you learn to love, and to understand, and that you attain a consciousness of brotherhood. These people are serving among you, much closer to you than you think or realize. If the people of Earth could know the help that has been given them and is being given them, I am sure they would be greatly amazed. In fact, beloved friends, it is only through the efforts of these servants, that any of you exist today in your physical, chemical, conveyance. For had some of the minds of planet Earth, continued in their path, all would have been destroyed before this. I am not bragging of the accomplishments of some of the beings from outside your world. I merely state these things because I think you would be interested in knowing.

Tonight there stands among you some beings whom I consider as being great in their accomplishments. I would feel and do feel a great humbleness whenever I am in the presence of such a being. I hope that each of you are aware, and that you too, feel this great love and humbleness.

Now, my friends, I must leave you. May each of you, through your own efforts, accomplish great heights in your search for truth, and may each of you come into a realization of your oneness with creation and your creator. Odina, my friends, Odina, Vasu, Borragus.

I am Hatton. ☸
