**Anthon:** Greetings to thee, my beloved brothers and sisters. I am Anthon. I have been chosen to speak to you tonight. The reason I so seldom do speak to you is because most of the time there is someone greater than I, available.

I should like to try to answer some of thy questions tonight that I know are in thy minds.

In the transition that is coming, many will pass to the astral realm before that time and shall again incarnate into the New Age with new bodies. Others will live through all the trials and tribulations and emerge ready to serve. Many bodies will be rejuvenated at that time through methods that are completely foreign and unknown to you. But then, there are many things that are not known to those who trod planet Earth today.

In the ancient times of the far, far past, in the beginning of civilization upon planet Earth, certain ones were inspired to write. These were known as the Inspired Divine Writings. In these writings were given the laws and how to use them. Many Masters developed from these writings and they were the religion of planet Earth for many thousands of years. They were simply written and easily understood so that anyone who cared to, could learn and understand. But as has always been the case, the numbers who really pursued the learning and studying of these laws were few. However, the numbers were much greater than they are today.

In all civilizations of the past, materialism has prevented Man from reaching the potential that was intended for him by his Creator. For Man was given in creation the power to control all of the elements of the earth, the elemental and the animal kingdom. He had only to study and develop these powers within him.

There are very few Masters upon your planet today. The term Master indicates one of high learning. There are also degrees of Mastership. The greatest Master that has ever walked planet Earth was the man known as Jesus. He studied and learned to master all things. He was willing to humble himself and to disregard the material, in favor of knowledge and he reached great heights, a height that no other has ever reached upon your planet. Thus, He was Christed, the Anointed One.

There still remains records of his study and work in some of the ancient temples. He is revered much more in some of these ancient temples than he is by his so-called Christian followers. These are temples that are known to certain ones and they are in use today. The temples that He spent most of His time in was in the area of Tibet. This is not to say that all the temples in Tibet are of a high nature. Many of them are not. Many of them are ruled by selfish priesthods who use their knowledge to control and to gain from others. This has happened all down through the ages. Priesthods have always become corrupt in certain areas. But there have always been the few who preserved the sacred knowledge, the records, and kept them intact. They exist today in some of these places and again will be revealed at the right time.

A business man in your nation once said to one of these Masters, whom he perceived was able to read minds, "You could make a fortune in Wall street with your mindreading power." But how wrong he was, for if he were to use that power to gain material wealth in that manner, soon he would become a materialist. And, all of his efforts and time would be devoted to taking care of and protecting his wealth. Soon he would be a slave to the wealth and gradually his other powers would be lost.

This is what the Master Jesus meant when He said, "It is easier for a camel to pass through the eye of a needle than for a rich man to enter the kingdom." This was what He was referring to. Materialism has been the downfall of all the past civilizations, and it will be the downfall of this one, for as you look around you today, what do you see? Everyone is pursuing the material, with little thought of developing themselves spiritually, but rather gaining more and more of the carnal.

Man in the future must learn to live a different life. In the New

Age he must learn to live not for the material, not for the carnal, but for mankind and for the good of mankind. If man does this he will find his every need will be met. He will live in comfort, love peace and happiness. For what can man do with great amounts of wealth and material possessions except to hoard

them? If man has all that he needs for a full, happy life, what would he need with more?

Those who have gained Mastership have no desire to become wealthy, to own great estates, to own great mansions, for without these things, they have time to study, to develop.

Nature is man's greatest teacher. Everything to be learned can be learned from nature. When man learns to communicate with nature, to study her, he finds that wisdom comes to him in abundance and also knowledge, for the things that are written in nature are true. There can be no doubt, for they are written by time. Every rock tells a story, and a true story. Every tree and every leaf upon that tree contains wisdom and knowledge and these are the places where man will gain his knowledge. There, and sitting at the feet of the Great One will he learn all things.

As I leave you, I wish to extend to each of you my most sincere love, peace and blessings. And I ask the blessings of all the Great Ones be invoked upon each of you now.

My peace to you, my beloved friends. Peace. ☸
