

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: I greet you in the light my friends. I am Oxal of Arcturus.

We have on this night monitored your complete conversation. This is very simple for us to do, my friends. We can do it in several ways. We have small discs we can station a short distance from your point of meeting and record all that passes between you. Also, we can tune in upon the brain of the channel and listen through his ears. This, we have done tonight. This would amaze your scientists, would it not? But it is very simple.

We have been very interested in your conversation. Many truths have passed among you. Some of you here have grown a great deal in your understanding. Each of you here are here because you are seeking. You are seeking the truth. Continue this seeking, each in your own way, and I assure you, you shall receive as you are able to.

We have been in your skies for well on to three years. We are watching individuals, waiting for their choice. As was stated here tonight, once this choice is made in full faith and in love, we more in with protection, with love, light and truth and guide them, direct them and protect them. This is our mission.

We have come to your system by request of the Confederation and of your system to help you through the crisis that now faces your planet. Truth must grow and grow rapidly upon your planet. We are awakening your people in masses to the realization that they must make a choice. That there are two ways in which they can go, and that they must make a choice. Many of your people have not realized this in the past. They have not realized that there are two ways in which each or you can go. They have not realized that your civilization through all generations have had the right to choose, but they have not chosen wisely. Many of them have not realized or known that there was another way. We can help only those who choose to serve in the Light, who choose the path of service to their people and to their Creator. We have pledged our help to all who make this choice. We urge you to establish firmly in your consciousness the great love for your Creator

and for your fellow man. This, my beloved friends, is the first step in understanding.

Love one another. Once this has been established, the rest shall follow easily. Understanding shall come in abundance; on the waves of love shall flow understanding. Can you see, my friends, why this is? You see, when you have a great love in your consciousness, it opens wide the door for understanding, for wisdom. Without love, the door is locked. This is the power that permeates the universe. There is great need for this upon this planet we call Earth. For the lack of it has set up vibrations about your planet, encircling it, that are bringing about chaos, disturbances of nature itself, for so you think, so are you, whether it be as an individual, as a nation or as a planet.

Do you have a slight understanding of what would happen to this planet you call Earth, if suddenly all should start emanating love, if suddenly all should start emanating positive thoughts? Can you visualize what would be the results?

Conditions would change so rapidly that many of your people would not be able to live in the vibration. Even your atmospheric conditions would change. You would not have the terrific eruptions of nature that you now have. The greater portion of these things are brought about by the negative vibrations that exists around your planet. If your people only realized the power of their thoughts.

On our plane of existence, we solve all problems through thought. If a problem is faced by one of our planets, it is solved through concentrated thought of the people. It is in this manner that we shall help your planet. We have been for sometime photographing conditions upon your planet, recording conditions. These are being relayed back to our people and at the proper time when our plans are laid, we shall concentrate our power and thought to help you, but there must also be concentrated help coming from this planet. We are also trying to establish enough people upon the planet to do this. In this manner, we hope to ease the situation greatly.

Many of the brothers of the Confederation have volunteered to come to the planet Earth to serve at this

time. They are working among you quietly, trying to establish more love and understanding among the people of Earth. I might add, a great deal is being accomplished, this, I am sure, many of you are aware of.

Continue your seeking, my friends, for many of you have a great task to perform. Soon, many people who are now walking the surface of planet Earth shall be awakened, shall become aware of who they are, and why they are here, and then their task shall begin in earnest, for the emissaries of the Infinite Spirit are soon to finish their missions.

I leave you now, my beloved friends. I leave you extending to you the love, the Light and the understanding of my people.

I am Oxal. ❄
