

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: Greetings in the Light my friends, I am Oxal.

I am sorry for our delay, for we have had some difficulty in bringing our instruments into proper tune with the receiving instrument before you.

It is good to see your groups of individuals gathering together in a common cause and we are happy to note that you are showing progress, both in your increase in numbers and in your increase of devotion to your cause.

We of the Otavana are here primarily to watch over individuals of Earth, to keep records of the process of its peoples, to note all individuals who have made the choice to seek and to serve. We have records of each of you, I am sure from the records that we have, if you were to see them, to read them, you would find that our records reveal more than you have in your own conscious mind. In fact it might be quite an experience to see how much you do not know about yourself.

But be that as it may, the time is when those who have been attempting to serve and to raise their consciousness, who have made their choice, it is time for them to come forth and to band together. To come out from among the masses, to stand forth. Long enough has it been that those having advanced into a knowledge or perhaps I should say, a degree of the knowledge of the inner life. It is time they be brought together that they might know each other and band together their powers at times, using them to bolster the consciousness of Earth mankind.

I perceive in the minds of many of you, both here and elsewhere, the feeling of lack to be able to do this. Discard this feeling, cast it aside and use that which you have, that it might become stronger, for unless you use that which you have, it only becomes weaker. When a member of your physical structure becomes idle for a period of time, it withers and becomes useless. So does your true spiritual growth only come by effort and one of the exercises is to use it in behalf of others.

Again the calling together has begun. This has happened in the past. Many of those who started down the path of the everlasting light have fallen by the

wayside, have not had the courage to follow through or they have fallen from lack of wisdom. Man, in his search for truth must also maintain balance and use wisdom. He must be on guard at all times, must keep his purpose high, keep ever before him the ideals that will carry him to ever higher realizations. And only through the use of wisdom and discernment will you do this. Many have fallen from the lack of these things.

The calling together will mean many things. It will mean that great care will need to be taken by each individual to thwart his self consciousness. To keep before himself the realization that in coming together man must create a consciousness of oneness. He must cast out Self. He must attempt to create an atmosphere of love and bring about an understanding between the individual consciousness.

You shall find the opportunity presenting itself in the very near future to band together the forces of light, so bolster your courage, prepare to stand out, to come forth from among the masses. No longer are you the masses, but you are strong individuals, endowed with the greatest power in creation, man himself. The forces of light upon planet Earth will come into this consciousness.

Great things can be done for your peoples, for every ounce of power that is put forth upon your planet by its peoples, a pound will be added from other sources.

Now, my friends, I must leave. May the great realization of truth rise high within your hearts now. I leave by extending to you the love, the light and the understanding of my people.

I am Oxal. ❄
