Oxal: Greetings in the light my friends, I am Oxal.

Once more we come to you at the beginning of your New Year to give you some idea of what to expect. But, before I do this, I would like to make a few remarks relating to what has been done in the past to attempt to help Earth man to avoid some of the things that he is bringing upon himself.

Many there have been who have come to your planet in an attempt to point the way. At the beginning of every age a Christed one has come to point the way, to give man the knowledge and understanding that he needs to carry himself on to the path of right. There have been many others who have come at other times. An example might be the one you have called John the Baptist. He is one who has had great interest in the evolution of your planet and has had a great desire to help your civilization avoid the pitfalls. He came in your time as a forerunner or a harbinger of Jesus the Christ to prepare the people for his coming and to point the way for them for their salvation.

He came again at the time of the forming of your great nation. He appeared among your forefathers when they were establishing your Declaration of Independence. At that time he spoke to them and pointed the way. Again he appeared a few years ago at a meeting of your United Nations of the council of this body, and again he spoke to them and pointed the way and pointed out to them their follies.

Again, he walks among you attempting to point the way. Your people have not been aware of this great being was but this does not matter. He is a man of great courage. Realizing how little heed has been given to his efforts, he still goes on trying and hoping. This is due to his great love for people of Earth.

At other times there have been others who have come and attempted to point the way. Little heed has been given to their remarks. There have been times of intervention when it was necessary to bring about great influence in order to prevent your mad scientists from completely destroying your planet and its peoples. But, these beings are serving for their love of mankind, though they know that their efforts are not appreciated or wanted.

Your civilization has built its foundation on the sands of carnal thoughts. They see and think in terms of the carnal. This is why you find yourselves in the position that you find yourselves in today. Many attempts have been made to divert your leaders from this carnal course to the spiritual course but they would not listen, they would not heed our warnings for they see only through the eyes of power. It saddens us that individuals can be so blinded by their lust for power that they cannot see anything else.

This power structure has lead your civilization down the path of destruction. In the beginning the laws were created and those laws are forever valid and he who violates the law must pay the penalty. This realization has not yet dawned in the hearts and minds of this great power structure. But in due time it will and they will be the ones who will cry the loudest for mercy. Yet they will not receive it.

Now, as to what you might expect in the coming times. In your nation, you will see uncovered more corruption in high places. According to the plans of your world powers, your economic system or condition will in a few months improve, but this will only be temporary. This will be a manipulation as has been your situation today. The condition that you find yourselves in today, your nation and your world, was all brought about by the planning of these powers. So they plan to give you some improvement in order to manipulate their own political interests. If their plans go as planned, there will be another change in your White House and it looks as though they will be successful. Other changes will take place in the political area of your government to bring those into power that will cooperate with the powers that be.

You can expect your food situation to continually deteriorate. It will become more and more scarce as time goes on and more and more difficult to obtain. Nearly half of your population today are experiencing famine and this also will spread. Many of your people assume that this could not happen in your great nation, but it not only can but in due time it will. Here again, this is brought about by the violation of the laws of nature. Your peoples have misused the land and the seas. They have wasted the resources. They have destroyed food when there was want among your

people. They have not utilized the land to produce food for the hungry. But rather, have paid those who raise food not to raise it in order that they might reap more profits.

These, my friends, are all violations of the laws of nature. In the law of cause and effect there must be a reaction. Here again attempts were made to warn your people against those things. To point out to them what the results might be, but they heeded not the warnings.

How do you reach those who will not hear and will, not see? If man does not heed the advice of those who are wiser than he, then he must learn by experience. Let us hope that man will learn by these experiences, and that in his next opportunity he will follow these laws, he will study nature. For if man would but observe and study the laws of nature and cooperate with them his life could be much simpler, much more pleasant.

You see, everything was created in perfection. Everything was provided for in creation. But man in his lust for power, has attempted to improve upon the perfect and how can you improve upon something that is already perfect? You only bring about disharmony and disharmony brings about chaos.

My friends, I do not speak these words to bring fear into your hearts. We are only pointing out facts as they exist and to those who have ears to hear and eyes to see, they will understand, and they will prepare themselves to meet the oncoming times. They will learn to stand in the light. For only those who build upon the foundation or rock, the spiritual foundation, will be able to stand in the fire. For they will be strong souls. They will be able to understand the reasons for these things and they will attain wisdom and strength and they will become a mighty rock who will show the way for the weaker ones. They will be those upon whom the weaker will lean. For they will have had the wisdom to prepare and they will have the strength to survive.

My friends, we are doing all we can from our vantage point to help those who have made the choice to serve in the everlasting light. We are attempting to impress those to do the things that are necessary and strengthen themselves. We will give you as much help and guidance as you can receive. For each is walking in the light that he or she can emanate. According to this can we do unto you.

May the grace and the peace of the Great Ones throughout space be bestowed upon you and may the light of each of you increase day-by-day to help lighten your world.

I leave you by extending to each of you the love, the light, the understanding of my people.

I am Oxal. ✨
