

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Joseph: Greetings to you, my brothers and sisters. I am Joseph.

I should like to touch, for a few moments, upon the Sacred Inspired Writings, since you have discussed some related subjects here at this time. The Sacred Inspired Writings were written by certain individuals back in the dim, dark past of man's development upon planet Earth. These individuals were highly developed spirits who had come to planet Earth to help mankind at that time in his development.

These writings were given for man to live by. They were written simply, yet precisely, and were very clear in their meanings. These writings were written in stages, giving man a chance to gradually come into understanding. When they were studied and completed, one would understand the function of the Universe, man's relation to man, to the Universe, and the One Great Mind. One would be able to use the laws of nature, and would be Master of the Elements and be able to control them. Everything would work for his own good, and his own peace of mind and wellbeing, so long as he followed these laws and did not violate them.

In every civilization which has developed upon planet Earth, the problem has always been that certain ones would begin to violate these laws. Teachings or religions, as you call them, would be developed. From these grew priesthoods, or so they called themselves, that desired power. The writings were distorted, sometimes destroyed, and man wandered from the ways of right.

All down through the Ages there have always been a few who have been the keepers of these writings. Never have they been all destroyed, for there have always been a few copies kept in safe places and passed down through the Ages through the hands of the trusted ones, who had been placed here for this purpose by the hierarchy of the Brotherhood. Today, these writings are still in existence in a few places upon planet Earth, and of course, the hierarchy of the Brotherhood in the higher stations or octaves of life, will always have this knowledge and be able to hand it

down to man when he is ready. So, they are not all lost and never will be.

All of you here have at one time studied these teachings as you traveled the corridors of time, but this was far, far back in time and they have been lost to your memories. You would have to probe very, very deep in order to find this in your past, and this would be very difficult. If you travel the Path and reach a certain point of acceptance in the Brotherhood, when you have met certain qualifications and initiations, you will again have the opportunity to study these Sacred Writings and again become Master of the Law, as you should be.

As I have said, this is given in degrees. You must prove your capabilities and worthiness as you move along. How you handle the primary teachings will determine how rapidly you will receive the greater teachings, for with these teachings or knowledge comes great responsibility, great responsibility! Man must learn to accept this responsibility and use this knowledge for the good of all mankind and never for a selfish purpose.

With knowledge will always come responsibility. The greater the knowledge, the greater the wisdom man must acquire to use this knowledge. Wisdom is man's greatest possession. He must acquire wisdom in order to move into the higher areas of life. So, my friends, pray always for wisdom above all else, for without wisdom you are nothing!

It has been my privilege to spend this time with you, and as I leave, I would like to extend to each of you my most sincere love and blessings. As you go forth in your search for knowledge, may your wisdom increase proportionately, and may you always have the wisdom to handle any of the knowledge that you acquire. I invoke upon each of you, the love and the blessings of all of the Great Ones.

Go in peace. Go in peace. Go in peace. ☸
