**Oxal:** Greetings in the Light, my friends, I am Oxal.

Today upon your planet a new milestone was reached in your scientific advancement and knowledge. From this will come great celebrations, great elation among your people. Already, this knowledge that has been gained is being analyzed, with the purpose in mind of using this knowledge to increase the ability of your science to destroy man. If a new milestone had been reached today in the spiritual advancement and knowledge of Earth Man, I wonder how great would be the celebration.

From our vantage point, as we observe and record the actions of men of Earth, it never ceases to bring us amazement at the complexities which man creates for himself. Earth man today finds himself so surrounded with the complexities that he has created, entanglement has become so great, that he finds it almost impossible to see beyond the entanglement. Man of Earth has reached the point again in the evolution of his civilization where he must make some very wise choices if his civilization is to survive.

Soon, and very soon, man must come into the realization that his scientific knowledge and achievements have carried him beyond his own capability to deal with them. Unless he goes back and strengthens the foundation of his civilization, it is going to collapse. Man does not build upon sand if he wishes his structures to stand against the elements and neither does man build upon materialism if he wishes his civilization to stand.

The civilizations that have reached heights in their evolution, wherein they are able to travel the universe, to know and receive the great science of the universe, have built their civilization upon a sound spiritual foundation. They have learned to know man as he truly exists. They have learned the laws of their creator and they are living by them with a thorough knowledge of the laws. And a thorough knowledge that only by living these laws does man truly become great in himself. They also know and realize the place man has in this great creation. They know that each is but a cell in this great cosmic creation, as is each individual cell a part of your physical body, each depending upon the other,

each being a part of the other. Each living for the other as well as himself. Perhaps, to visualize oneself as such could be difficult for many, for the "I" has become so important to them that they are ruled by the

"I" and the ego, rather than just being, just being a part of this great creation.

Awareness of these things must come forth from the hearts of the masses of Earth man if he is to survive as a civilization. And, beloved friends, the cycle has almost passed. The time in which he can do this for this civilization is very short. But, what so ever comes to pass for Earth man in the near future, he has brought upon himself. Great efforts have been made by others in your system, from other planets in your system, in attempting to bring this realization to your people. Some of the great world leaders of your world have been contacted by these people and have refused to listen, have turned deaf ears. Many offers have been made to the powers that control your planet but always they have been refused. This is difficult for many of your people to believe this, we know, yet the truth stands. And so they go on, and so Earth man goes on, living on borrowed time. For, were it not for your friends from other worlds, none of you would be sitting here tonight. This is well known also among your leaders but they go on, plotting and planning destruction. Peace has been a great issue, much talked of among your people and your leaders, yet the very talk of peace among them brings conflict, for no one can agree upon a method of peace. Peace is not something that we agree upon. Peace is, as truth is. For until peace is found within man's heart, there can be no peace.

It is our sincere hope that many of your people will find this peace within themselves, for if enough of them do, much, much of the conflict that will otherwise befall your people can be avoided. And we are grateful that there are those, such as you gathered here tonight, who are helping these people to find peace. I leave you, beloved ones, by extending to you the love, the light, and the understanding of my people.

I am Oxal. ✿
