These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Oxal: Greetings in the Light, my friends. I am Oxal.

We are using our visual instrument upon the instrument here tonight, if I may call him such, in order to demonstrate how it is possible through certain knowledge to cause one to be able to see from one dimension into another. This instrument is bringing our picture to the visual part of his brain. In other words it is transforming one dimension into another in relation to his vision or sight.

If this were done by instruments such as your television, your cameras would not pick up our dimension. Your science has not advanced to that point. However, this is possible, and if you had the knowledge you would be able to do this. Instrumentation can be built that has a range of different vibrations and dimensions, and can bring one dimension into a vibration that can be seen by another dimension.

Your people have much to learn about dimensions or octaves of vibrations, or whatever term you wish to apply. Until they can come into some understanding or concept of this, they will not be able to accept life as it exists in the universe. This is gradually being brought to your people so that they might understand or at least begin to get some concept of it.

If you are to develop in the New Age that is upon you, it will be necessary to have some understanding of these things. In the times to come planet Earth must join other civilizations in the Confederation of your Solar System so that they might be a part of the whole. To do this it is going to be necessary to have some knowledge and understanding of dimensional life. This seems to be very difficult for your scientific minds to accept. They deal only in Earth dimensions and ignore all others. This cannot continue much longer on planet Earth.

Man must begin to wash away the old and to look into the new with an open mind. As we view your Earth from our vantage point, we see the new energies being poured forth upon planet Earth and upon your Solar System, and we have observed their effect upon your planet. It is a coming of the new and the passing of the old. It is affecting your planet itself. It is bringing about

changes day-by-day in planet Earth itself. We observe these changes and it is interesting to watch.

It is affecting Man in many ways. His ideas and concepts are gradually changing. New concepts are coming to man more rapidly than he realizes. For many, it is difficult to give up the old and accept the new. Old concepts and habits are clung to desperately by many, while others release them more easily. Some will not release them at all. Man, in general, has a great opportunity at this time, for if he will accept and use these new energies that are coming to planet Earth he can go forth much more easily and rapidly.

The greatest thing that has happened in your civilization is taking place at this time. Some are being affected in what we could perhaps call an adverse way, because they are clinging so tightly to the past. They will not let go. Many have incarnated into your civilization at this time who have not incarnated for many centuries. They have incarnated at this time to be given a chance to throw away the old and to accept the new. Many of these are very violent because of their past training in other lives and this is one of the reasons that you see so much violence upon your planet today. Some of these are turning to the Light. Some will not, but they are being given the chance, and the sheep are being separated from the goats.

Those who will accept the new and do away with the past, looking only forward, will be the ones who will be established in the New Age that is upon you. The New Age energies are becoming stronger day-by-day. The old ones are passing away. The effect is felt in every aspect of Earth life. The change will affect all of the animal life, plant life and on down to the smallest insect and the planet itself.

It is written in your scriptures that in these times the beast of the wild shall be led by a child and the lion shall lie down with the lamb. This, my friends, is symbolic of the change that will take place upon planet Earth in the coming times.

Man must keep an open mind. He must try to understand. He must search for truth. He must make great efforts to slay the old. Goliath must be slain. Man must become a new creature in many ways. He will do this and a civilization of justice, love, freedom, and of

respect and consideration for all life and each other will emerge. Thus must be man's fate.

So, my friends, there are great horizons to conquer, great challenges, great mountains to climb, and Man will conquer these things, climb these mountains and emerge victorious. It will not be easy. Nothing is gained without great effort. So, work, work, my friends, and conquer, for the greatest victory you can ever gain is to conquer the self.

I leave you, my friends, by extending to you, the love, the light and the understanding of my people.

I am Oxal. ✨
