

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Hatton: I greet you, my beloved friends, in the love and light of the Infinite Creator. I am Hatton.

I am with you tonight. I am not speaking from aboard a craft, but I have come here among you and am using the body of this instrument to work through. I have done this for a purpose. Also I should like to state, that each of you here tonight have a Master beside you. Each of you here by this time should be able to at least sense this. This is not without purpose either, my friends, for each of you tonight are being endowed with love and knowledge, whether or not you realize this, is up to you. But never the less, it is being given, and you shall benefit.

There is a great task for the light workers to perform. The importance of this task is increasing day-by-day. You must be ready when the call comes, and it shall come, beloved ones. Yes, it shall come, and the response will be up to you. The recognition will be up to you.

There exists among Earth people today a great fear. Why do they fear? Why does doubt and fear rise up so predominant among Earth people? They have lost faith in themselves. They have forgotten what the great Master told them. His words were these, and they had great meaning, "Let not your heart be troubled, neither let it be afraid, for lo I AM with you always." It would be well to meditate upon these words occasionally, and let their meaning sink deep into your consciousness. For therein lies a great truth. Know, my friends, with all your being that this great "I AM" is with you at all times and is your guidance and protection, your all. It is the most important part of your being, and it will carry you over the roughest path, over the wildest seas. It is your to use, and it is within all. It need only to be recognized. That is all. That "I AM" within you will do the works.

Man is great. He is great within himself. Man in his true reality knows no bounds. Earth people have strayed far from reality. They are living in a great illusion. If Earth man is to come into his own, then he must rise out of this illusion and into reality. He must know himself. He must learn to love. To know love is to know your creator, to know yourself. For in reality, man is love. For it was through love that man was created.

Therefore, man can only come into his own through love and to love is to understand. So you see, my friends, when we know love, we have understanding and wisdom. For they go hand and hand. So know, learn to know yourself.

We are making progress with planet Earth. The new age is dawning. The masses are beginning to awaken, very slightly, but they are beginning. Through our influence, we are bringing about many things. Many things are happening to spark a desire in man for knowledge, to step farther and farther into the unknown. In general, Earth man has had a great fear for the unknown. This must change, and this fear must be replaced with a desire to know, for when man desires to know and seek in love, he shall know the truth and this truth shall make him free.

And now, my friends, before I leave, I would like us to have a moment of silence, when each of you will receive from that one with you tonight, a very, very special blessing. And now, my friends, let us make ourselves receptive, open and receptive. Let us lay our hearts open to love for just a moment.

(Pause)

It is done.

Now, my friends, I must leave. May each of you receive untold benefits from the blessing that you have just received. May each of you grow rapidly in love and understanding. And may each of you, when your call comes, be so filled with this love and understanding, that you shall perform your mission in a full and masterful way.

Odina, Beloved Ones, Odina. I am Hatton. ❄
