

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Samuel: Greetings to you my children. I am Samuel. What would you like to talk about today? Do you have any questions?

Questioner: When a person sees vivid colors during a dream is this indicative that it was not a dream but an out of the body experience?

Samuel: This is partial truth. An out of the body experience can be remembered in color or black and white. This depends somewhat on the consciousness of the individual.

Questioner: Will you speak on the subject of using mental powers to influence others? What are some of the points to remember when trying to decide to use this method?

Samuel: So long as it is for a good cause. Often to accomplish something, it is necessary to get through to someone mentally providing it is for the good of yourself and not detrimental to the other individual. You would try to get through to them mentally whatever you desire they should consider it. As long as you do nothing to take away their free will, you have started off in the right direction. The motive in back of the situation has a great deal to do with it. It must work both ways. It must be beneficial for them as well as for you. As long as it is benefitting both parties, it is good and proper. You must be very careful about these matters.

It is no different than if you had a business. For instance, you visualize customers coming to you. You see your business increasing and many new customers coming to you and that sort of thing. That is influencing and drawing people to you. It is fine to use this method of influencing people to do business with you if you are going to give them the best of your service and if it is a service that you are selling for the amount paid. This way, the people that you are drawing to you, get their monies worth and you get new and more customers.

If you are doing this to defraud these people when they come to you, then you have a different situation. The motive in back of your actions is very important. You must ask yourself, what is my motive? Anything that is done for the benefit of all is good. So, as long as your

motives are pure and you are giving value in exchange for the amount received, you do not have to worry.

For a number of years your people have been encouraged to recycle products, (glass, metals, et cetera), but most of the people pay no attention to that. Most people throw it away. Put it in their trash. Most are too lazy to do whatever is necessary to recycle it. You can see what has happened. You are running out of places to put this trash. You have polluted the areas so much where you have been dumping these things, that now you have a great problem. This is going to be a very costly problem. The same people who lacked the energy or were too lazy to cooperate, are having to pay the price in a monetary way. The prices of the disposal services are going up and up. People will be forced to do these things whether they want to or not. This you see is one of the problems with Earth people. They will not do anything until they are forced to do it. Then they complain because of the high prices. But they have brought it upon themselves. We have said many years ago in our talks, that this is what would happen if this situation were to continue, and here you are.

Questioner: How long will the nuclear waste that we are now creating be dangerous?

Samuel: It is going to be a big threat for some time yet. In the next (New) Age, man will be given ways to deal with these things, to neutralize a lot of these pollutants. After that, he will be too wise to repeat the mistakes that have been made because he is going to suffer much from it.

Questioner: Before we are fully into the next age?

Samuel: Yes, and before he gains the knowledge of how to deal with it. In fact, if a lot of your atmospheric pollution had not been neutralized by others, you would be in a lot worse situation than you are. It was done unbeknownst to your people.

Questioner: Was this all done according to Universal Law?

Samuel: Oh yes. It was done to keep you from destroying yourselves and the Earth. In fact a couple of times you came so close to destroying the Earth, that it was only a matter of hours by which you were saved.

Questioner: Nuclear testing?

Samuel: Yes. In one instance, there was a stock pile of nuclear weapons. It was a matter of too many in one place. Another situation was during an underwater test. These were two times when the Earth could have been destroyed. Someone helped you out. Now they know better and they are not repeating those mistakes because those who are/were in charge were given the evidence that brought them to the conclusion that this truly could have happened.

Keep on with your studies. Keep growing. Gain more knowledge, meditate, as much as you can. You don't have to overdo it, of course. Keep close to that great power within you, you call God. That power dwells within you. The more you can utilize its aspects, the faster you will grow. Cultivate your intuitive nature. Listen for that still small voice. Be cheerful. Be joyous and be happy. Laughter is one of the best medicines that you can take because it raises your vibrations and raises that spirit within you. Always remember that within you is the greatest power that exists. It can accomplish anything if you use it and develop it. It is that nature of God with all its aspects, that dwells within you and all men. It is yours to use and to develop.

You were not meant to be poor, to be somber, to be unhappy. Life should be lived in its fullness which means that you should have peace, joy, happiness, and prosperity.

So develop your faith, your will and your awareness. Never forget who you are and what you are. It is all yours. The Father is ready to give you his kingdom, so be ready to receive it. Be grateful. Be thankful. Praise and thankfulness is a must. So give thanks often and feel in your heart that great appreciation for all that you have and all that you are going to have. For this is a great force. Gratitude is a great force and brings about many changes in your life

So I say to you, be peaceful, be joyous, be happy. Fulfill all of your duties with joy and happiness. Never begrudge the fact that you have to do some menial task but do it joyfully and happily. For he who does the small things rightly, will be given greater things to do.

Peace beloved ones. Peace. Peace. Peace. Walk in peace, be peaceful. ✿
