

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: Greetings in the light, my friends, I am Oxal.

You have reached the close of another decade. A very eventful decade in which many of the things have come to pass of which we spoke to you about in the previous decade. I should like to speak to you for a few moments concerning the decade that you are now about to enter.

Much portends, my friends, much which I wish were not to be, but due to the great errors of your civilization, must come to pass. Because of the great holes that have been punctured in your outer atmosphere, the elements of Nature have been turning upon man and this condition shall worsen greatly in the decade to come. Floods and droughts shall plague your planet but the greatest of these events shall come from the inside of your Earth. Through great volcanoes which shall be released upon the land and in the depths of the oceans, you can expect some great tidal waves to occur in this decade which will do great damage. Tongues of flame and ash shall spring from the earth in locations where it has never been known to happen before and the population of some of these areas shall be nonexistent.

Great displays of meteorites shall be seen in the heavens which shall light the Earth by night and be seen around your Earth by all peoples and some of your most staunch atheists shall fall upon their knees, thinking God is angry with them. The events of this decade and the next will be such as has never been known in your civilization. There will be new diseases develop that will baffle your medical professions, which they will not be able to cope with. There will be much scandal in your medical profession. Many will be convicted of malpractice and the transplant fad that is sweeping your planet at this time shall end in the conviction of many of your physicians. The violence in your cities shall increase. In fact it will reach a point where your law enforcement will break down almost completely.

I say these things not to bring fear to your hearts for I could say much more but to be forewarned is to be forearmed and to those of you who are seeking in the light, who are seeking greater understanding, will want to know what you have to face. By knowing this and increasing your own faith and awareness you can be of help to those of lesser understanding. So I say to you. Increase your faith. Develop your faith but also develop your works for faith without works is nothing and works without faith is naught. So you must, if your faith is to work for you, you must work for faith. In your thoughts, your deeds and it must become a way of life for if one comes to you hungry and unclothed and you pat him and say, "Go in Peace, be filled" and give him not that to fill him and that to clothe him, you have done naught. Your faith has been for naught for there has been no works to accompany it.

To those who are faithful unto death, they have no reason to be concerned. The very light which they create by their faith and their works shall protect them, shall carry them through any trial or any situation. The protection is yours to have, you need only to fulfill the law.

Those who would be teachers, let them beware. Beware of what thy tongue shall utter, for every word that cometh from the mouth you are accountable for by law. Utter not that which is not of truth. Many of your peoples seem to be under the impression that they are not accountable for the words they utter, only for the deeds. But I say to you that the tongue can be as destructive as any weapon. From the same tongue can come great praise for the Creator and then curse its brother man, not realizing that when he curses his brother man he is also cursing his God. Therefore judge not any man, lest ye be judged.

The laws of the universe are just and inescapable. Man shall reap exactly what he sows. So beloved ones, be very careful of the seeds you sow, for every seed shall produce of its kind. This is a law of Nature and does not vary.

Beloved friends, I have said enough. May each of you come into a realization of what and who you are and

may each of you conquer quickly the self, which is the only obstacle that stands in the way of your entry into the Kingdom.

I leave you by extending to you the love, the light and the understanding of my people.

I am Oxal ☸
