

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Nathaniel: Greetings to you, my beloved friends, I am Nathaniel.

I shall be brief. I have monitored your discussion here today and I have this to say: You are viewing evolution through a small hole in the fence, so to speak. But as you grow in knowledge and understanding, this hole will expand. You will see more clearly the great plan behind all of this and how great it is. You will understand that much thought and effort has gone into the planning of this Cosmic Day.

This is not to say that all is perfection for everything is in the process of evolution. Therefore each Cosmic Day will show advancement, for everything and everyone will have evolved to a higher point. The next Cosmic Day will be more perfected than this one and previous ones.

Many of these things may be difficult for you to understand from your point of view and with the understanding and knowledge that you have. This is not of the uppermost importance that you understand and know about all of these things at this time.

The most important time in the evolution of any one ego is this very moment, for if each will take that which he has learned and use it to the best of his or her ability here and now, he will be doing well. Knowledge is of little value unless you apply it, use it, prove it, to know that it is true, and to demonstrate in your life the laws that have been given to you over the years. To become day-by-day a stronger individual you must improve your mental powers day-by-day by using them and by demonstrating the laws that you know about.

As you become proficient in each one of these laws, new knowledge will come to you which will give you the opportunity to advance farther on the Path.

Advancement does not come without work. If you want to be loved, then send forth love to others and make it sincere. If you would receive, then you must give, for that which you give will come back to you, regardless of what it is. It is the Law and the Law never fails.

If you fail, do not blame the Law, but check yourself. See if you have applied the Law properly, if you have fulfilled your part. All Laws of the Universe will be

fulfilled. Know this. It does not matter what the Law is, what it applies to, if it is a Law then it will work. If it fails, then it is not the fault of the Law. Therefore, learn to use the laws properly, with proper motives, with always good intent, and the Law will come back to you in the same manner.

Anything that returns to you of a destructive nature can only come from a destructive thought. Therefore, it behooves everyone to be aware at all times of what they are doing, of what they are thinking.

You are the master of your ship, and it is up to you to control it, to guide that ship into calm waters. A ship that finds itself in stormy waters has not been properly guided.

So you see it is up to each individual to determine what will come to them. When you find things coming to you of an unpleasant nature, a negative nature, it is well to do some analyzing, then deal with those problems in a positive way.

As I leave you, my friends, I extend to each of you my most beloved blessings.

May you go forth on your journey through this life bringing to yourself those things that will be uplifting and beneficial to your evolution.

May you meet all of the controversies in love and understanding.

May you find that peace within yourself that all seek, for the peace within will not come until you have made peace without.

Go in peace, walk in peace. Be peace. ☸
