

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Tonga: Greetings to you, Children of the Light.

I extend to each of you my blessings and my love. I am known as Tonga on my plane of service and I was afforded the opportunity to speak to you for a few moments tonight.

Each of you here face certain problems upon the carnal plane of life. Each individual views his problem as a great problem. Your problems are varied and in some cases perhaps many. But beloved ones, there is an answer for each of your problems. No problem is so great that it has not an answer. You see, the greatest problem is that we become lost in our problems. We allow them to overcome us, to irritate us and thus we see them in a distorted manner. If one is to solve their problems they must see them for what they are and deal with them with this attitude. Too often you look for the answers to these things in the wrong places. You look everywhere except where the answer really lies. The answers to all problems, my friends, lies deep within yourself. Man has become so accustomed to searching outside himself for answers that he never thinks to look within.

It is the same in searching for God. Man has searched for God over the centuries, everywhere except within himself and he has found Him not. A segment of the Great Spirit of Creation lies within every man and there and there only will he find Him. The answer to all problems is found in this Great Spirit of Creation, which you call God, and thus being within you, this also places the answer within you. So, my friends, search within, search to find this Great Creative Spirit, for It is only found by a searching.

There are three parts to this Great Spirit, spoken of in your religions as the Trinity of God, god the Father or the power, the strength, god the Mother, the Spirit of wisdom, and god the Son, the Spirit of love. Man, to be complete in his spiritual growth and understanding, must manifest all three of these aspects. But the most important to start with is the aspect of love or the Christ. Once this has gained strength in your consciousness the rest will come more easily and more quickly. Man is endowed with all three of these aspects

but he must cultivate them and allow them to grow and mature in his being.

Every man and every woman will have one of these three aspects more dominant in their personality or consciousness and one can be endowed with one of these aspects and can be completely oblivious of the other two. But one of these aspects will stand out in every individual, but how that individual uses that aspect is another thing. For like anything else it can be used wisely or foolishly, so it is well to take stock of oneself and see which of these aspects is predominant in your personality and then use it to glorify the Creator rather than use it for self.

You might wonder how knowledge and wisdom could be used, but you see there are various aspects of each aspect. With wisdom one must have knowledge, knowledge is a part of wisdom and many have great stores of knowledge. They are wise in this manner but they do not use it for the good of others they use it only for self gain or to glorify themselves. So, be careful how you use your God-given talents, be sure that you use them wisely, for only in this manner will you truly profit. Man does not profit by carnal gains for sooner or later they turn upon him and destroy him.

It is as I have said, all men should strive to cultivate, first of all the aspect of love, that he might truly understand love, that the Christ Child, the Child of love, might be born in your heart and grow and develop there, for without love you have naught. This in itself will solve many of your problems, they will fade away as the seed of love grows and opens into the beautiful flower that it is. It is one of the most beautiful flowers that has ever bloomed and you cannot mistake it when you see it.

I am grateful for having this opportunity to speak with you tonight. I extend my thanks to the instrument and his wisdom and I extend to each of you as I leave you my deepest love, my greatest blessings. May each of you this night find that Christ Child in the manger of your heart and nourish Him that He might grow and become—you.

Bless you, everyone. ✿
