**Samuel:** Greetings to you, my beloved friends, I am Samuel.

I extend my love and my greetings to our new friends here tonight and welcome them into our midst.

With your permission, I would like to speak again about the power of concentration and visualization. But what I say is only my understanding, my truth. You will have to decide if you can accept it as your truth.

Man of Earth often spends a great deal of time discussing many things which are of little consequence as far as his true growth is concerned. In my opinion, if man would spend much more of this time discovering who and what he is and understanding himself, he would grow in understanding, in wisdom and in power, much faster.

Each of you, my friends, are potential Gods, you are creators in your own right. You are creating every moment of the day, every thought that you think, every word that you utter, is a creation.

Now if you are creating so effortlessly, what could you do if you really put your mind to it, and begin to realize the potential that you have within you and begin to develop this potential? Too often man looks from without for help but my friends, the help is not coming from without, it is going to come from within you, by you developing your own powers, your own potentials.

Sometime back we presented the idea of visualization and its power and how through developing your power of visualization and concentration you can develop and increase your power of creation. You can create anything you desire if you put your mind to it and develop that power of concentration. The only reason that man has to work by the sweat of his brow is because he has lost his power of concentration.

Universal Mind is such and the laws through which Universal Mind functions are such that it must return to you that which you visualize. Universal Mind does not discern between good and evil, it knows no good or evil. So you see it behooves us to be very careful with our thoughts and our deeds because if we think thoughts of hate and resentment, Universal Law will return that very thing to us in time and the harder we

concentrate upon it the more power we give it and the faster it will return to us. The time required for Universal Mind to return that which we visualize and think depends upon the power of concentration and visualization of the individual.

Now a Master Mind knows these laws, he knows how they function and he knows that they never fail. So he is very careful of what he sends into the ethers. He also knows that he can create in a very short time anything that he desires. But he will not misuse this law. He will create only that which is needed and can be used for good. So we must use wisdom along with this knowledge.

The black magician knows these laws and how they work. He uses them to his own advantage to gain power over others, to destroy others and to build up power for himself. He who uses the laws in this way will find eventually the laws will turn against him and destroy him. It is the black magicians who eventually sink into what is called the "Second death," and they suffer this because of the terrible ways they have misused the Universal Laws which were intended to be used for the good of mankind.

These laws can be used in many ways and you can bring to yourself that which you desire. If you desire knowledge and wisdom, then you visualize yourself as gaining this knowledge and wisdom and direct these thoughts into the ethers. Then you will find opportunities coming to you from all directions, that you can take advantage of in becoming wiser and gaining more knowledge.

The highly advanced beings, those who rule the planets, the galaxies, the universes, use these laws to create these universes. The very ground upon which you walk was created by Great Master Minds through the power of visualization and concentration. You my friends, can also reach this state of consciousness and this is really the goal of all men to become one of those great creative beings, to someday become the Lord of a planet or the Logo of a galaxy. Can you see yourself in such a position? My friends, this is the potentiality that each of you have. Realize who and what you are. You are Gods in your own right. Each of the Gods out there in space were once at the same point in evolution where you now are.

Now, my friends, I have said enough. As I leave you I extend to each of you my most sincere love and blessings and I ask that the love and the blessings of all the Great Ones be bestowed upon each of you now.

Go in peace, beloved, go in peace. May you walk ever in the footsteps of your Great Master, Jesus the Christ.

Peace, peace, peace. ☸
