Oxal: Greetings to you, my friends, I am Oxal.

It is my pleasure to again have the opportunity to speak with you. I perceive that you are looking forward to hearing something about our opinion of the future.

I wish that I could bring you news that would be pleasing to you concerning your future times or the next decade. Perhaps

I will speak in terms of the next two decades.

You are now entering a decade that is going to be very eventful in the activities of nature. Your planet as we have oftentimes said, is in herself an entity and possesses consciousness. She has become a very ill entity due to mankind's abuse of her. He has polluted her air, her streams and has depleted much of the resources. He has been wasteful and has been almost ruthless in his treatment of his Mother Earth. Now she is beginning to react. She must cleanse herself as she has been obliged to do in other times. This process began a number of years back and has been increasing in intensity each year.

In this decade, which you are about to embark upon, there will be some very violent reactions, such as has not been known before in your civilization. The conjunction of some of the planets which I will not go into in detail, will have its effect upon bringing about some of the actions and this will occur approximately in 1984. The years between 1980 and 1984 will see much violence from nature and from man. The fault lines will become more active, greater earthquakes will occur, storms will increase in intensity, man himself will become more violent.

The situation in the Middle East as you call it, will eventually worsen in this decade. But the main trouble spot where your great world war or your third great world war will begin, will be in the African area, Ethiopia, the African states and will spread from there through the Middle East and to Europe. This will be the greatest and the last great war of your civilization.

We do not believe that the great hydrogen and nuclear bombs will be used to any great extent. The fear of leaders is too great to allow this to happen. However, some of the minor ones will be used and will render

certain lands unproductive for many, many years to come. This war will not materialize until past the middle of this coming decade (1980's) but it will extend into the next decade. It will eventually include the Dragon (China) and the Bear (Russia). The Eagle (United States) will be the last to participate for the financial condition of your country will be such at that time that you will not be of much help in the war. Your people are not going to be influenced into entering into something that they see no purpose for or no gain, only loss.

In your Scriptures it is said that were it not for intervention in these times from on High, no man would be saved. This intervention will come about in the 1990's, not in the way that many think: that someone, or that God himself is coming down from heaven to stop the madness of his people. But nature herself will intervene. She will become so violent and destructive herself that mankind will be so busy trying to save each other and helping each other from the great destruction of nature, that he will not have time to fight a war. He will lose interest in this war and it will fade away.

Then towards the close of that century will come the last great upheaval of your planet. She shall shift her poles, causing your Earth to tip, to roll, and at that time new lands will come up and old lands will go down. This is a process which takes place at certain intervals with your planet in order to bring her back into balance. At the same time the new sun will enter your solar system. You will truly have a new heaven and a new earth. For around the new magnetic center of your system the planets will take their new locations and begin to orbit in their normal way and you will be a binary sun solar system.

All these changes will bring about new energies which will pour forth to the planets and stars of your solar system, and your whole solar system will take a great step in its evolution. Man himself, upon planet Earth, will be a somewhat different type of person. He will be of a little different vibratory rate. He will have, under these new energies, a greater capacity to think, to understand, and many of the mysteries of the past will be revealed, to him and he will understand.

So you see, my friends, this is not doom and gloom. It is the blossoming forth of a new age, new

opportunities, a new life, a more productive life, a happier life. Much pain and sorrow will be done away with for man will understand how to avoid these things. Your whole social system will be much different than it is today.

There will be greater love between people and they will better understand each other. They will be better able to work together in harmony and in peace. You will not have wars because by then you will see so strongly the uselessness of these things.

There will not be so many "haves" and "have-nots" for all will share equally. Starvation will not be known in these coming times. You will not function as you do now by states and countries and all separate governments opposing each other. There will be a world government, a planetary government, associated in turn with the Confederation of the galaxy. Your planet will, for the first time in many thousands of years, be represented at the Confederation.

So you see, you have a great deal to look forward to, so let us look beyond what might happen in the next few years and look to the future that lies ahead of that and rejoice. As your Great Master once said, "when you see these signs, rejoice and be glad for you know that your redemption is nigh."

I leave you, my friends, by extending to you the love, the peace and the understanding of my people. I am Oxal.

Clyde: Athens, we extend our love to you and Oxal and to all those aboard the Otavana. We know that you have spent a great deal of your time and effort in trying to help this solar system and our planet through these times. We wish to extend our love and our gratitude to you for your efforts. Thank you.
