Yaum: Good evening to you, my friends. It is my very good pleasure to come among you at this time since this is the last day of your year. I should like to spend a few moments with you and bring to you my greetings.

You are about to embark upon a new year but you are also about to embark upon something much greater a new age. I know much celebration takes place at the change of your year. I would that you could see the great ceremony that takes place in the transfer of power from one age to the other. This would be a ceremony that you would never forget.

Anthon and I listened to some of your conversations here tonight. In other words, we were doing a little eavesdropping as you call it. We were interested in your discussion of the psychic, so I would like to say a few words in regards to this. Now, being psychic is really not very important. It serves a purpose in the betterment of humanity. I should like to also say that being psychic does not indicate that one is spiritual. Some of our worst black magicians are very psychic and have much knowledge and power in these fields. So becoming psychic is not the most important thing one can accomplish.

As some of you are aware, I was one of the instructors in the school of the Mysteries for many years. In our teachings there we did not emphasize development of the psychic abilities in any way. First we taught our pupils discipline and how to meditate, to get within to find one's true self. Man's greatest search for knowledge is the search of knowledge of himself. In order to attain this knowledge one must go through a great amount of research, of soul searching, of getting within one's self. This is accomplished through discipline. Discipline the self, overcoming the lower self, the carnal man, for until you are able to master him you cannot reach the inner sanctums. One must also purify the body by means of proper thought and proper nutrition. These spiritual centers of the body are directly related to the glandular systems of the body. Each of the glands also represent a spiritual center. Unless this glandular system is healthy and functioning properly it is difficult to develop the spiritual centers. So, we emphasize strongly proper nutrition and proper exercise and strong discipline.

In order to accomplish any of these afore said things to any degree one must develop self discipline. One cannot overcome the lower self unless one has developed this discipline. Earth man, by and large, is ruled by the lower self, the lower senses. Until one has overcome this, they will not be able to transcend themselves beyond this vibratory state in which you exist here. This to one of the great goals of this earth life, earth school, is to learn to master the carnal self. These are the things that we emphasize in our teaching.

It may seem at times that we are very, very rough on our pupils but this is only because we have to be in order to impress them of the importance of these things. To enter the School of the Mysteries and follow it through to its conclusion is not an easy task, my friends. Many do not succeed. Those who do become strong, they become great servants of mankind. And man in his final analysis, will be judged mostly on the service that he has rendered to his fellow man. As these people grow in consciousness and self-realization these centers begin to open automatically. They do not have to try to open them. The first to open will be the love center, the maturing of the Christ child that was born in their hearts many years earlier in their training. When this has or begins to come into maturity, the other centers automatically begin to open and as they open their wisdom grows with it and they are able to use these powers and abilities for the good of mankind, providing they do not let the old ego self rise its ugly head again within them. Occasionally this does happen and these are the ones that become black magicians, as they are called. But woe unto these that fall for their fate its too horrible to describe. The law of karma will eventually destroy them. Their own acts and deeds will bring unto them the second death which, as I have said is too horrible to describe. Many of your people who have found these centers open have been able to use them for the good of mankind. Many have misused them in degrees, and to the degree in which they misuse them, will they eventually suffer themselves. For anyone who attains these powers should be very, very cautious in how they use them. We do not attempt to open these psychic centers in any one unless it is for a specific purpose, and then we only do it to the degree of which it is intended to be

used. This was the case of the boy here. Often this happens to people accidentally. Something happens that may open the center, such as a blow on the head or a fall, something of that type could cause certain psychic centers to open. In these cases, if they use this for good it is beneficial to them. Otherwise it can only be detrimental. But enough of this.

You are, as I have said, about to embark upon a new year. This in our opinion, will be a very eventful and interesting year. There are going to be, we feel, many things happen this year. Perhaps some of them beyond this year that will be very beneficial to your people providing it is properly used. We feel that there will be some interesting scientific breakthroughs. This is not going to make some your medical people very happy but they will not be able to suppress it as they would like. We feel there will be some breakthroughs concerning life and death that is going to make some of your religious organizations very happy while others are going to be very unhappy because it will upset some of their beliefs. I believe that Oxal has touched upon the political scene for the coming year, so I will not go in to that. There is going to be, we feel also, a breakthrough concerning life on other planets and their visitation to your planet. Perhaps some verified contacts and communications and perhaps people of prominence coming forward and admitting their knowledge of these things and even their contacts. These things we feel will all be beneficial and welcomed by your people. But on the other hand there are going to be some severe storms and earthquakes which will do some great damage. And the drought situation on your planet does not show signs of improving very soon. I think the most serious situation that Earth people have to face in the near future is food. That will be one of your most severe problems and will affect your civilization in many ways.

Now my friends, it has been a very great pleasure to spend this time with you. I wish to extend my gratitude to the heads of this household for accepting me into their household and to all of you for accepting me into your midst.

Questioner: We thank you for coming.

Yaum: It is my pleasure and anything that I say or have said is only my understanding. I can only share my understanding with you. This does not mean that you have to accept this as your truth for each must make his own decisions. So, I leave you by extending to each of you my deepest love and I ask all the Great Ones to send forth their love and their blessings to each of you.

May each of you as you go forth in your new year become stronger day-by-day in His Light. Peace, my friends, peace.

Go in Peace. ✿
