

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Joseph: Greetings to you, my friends, I am Joseph.

The things that you have studied thus far may seem unimportant and unnecessary to know. Yet, if you are to reach any heights on the ladder of Occultism, these basics will be very necessary for you to understand, to know. It is like mathematics, unless you have the basics of mathematics, you will never be able to do calculus.

Although sometimes it may seem boring to you since you do not have interest in the scientific side of things, yet, as you proceed, you will see the importance of this basic knowledge. The things that you learn in a book of this type, of study of this type, are primarily basic. Yet, you will find many profound teachings that can be of very great benefit to you in improving yourself and your environment.

Omniscience must be reached by hard and diligent work, by proving to yourself the laws, by convincing yourself of the validity of what this teacher is saying. Without demonstration, your progress will be slow. The rapidity with which you move upon the path depends entirely upon the effort that you yourself wish to put forth. Truth will expand for you as rapidly as you will make it expand. The time and effort that you expend upon the demonstration of the things that you learn will be very rewarding in the end, but priorities must be set. You can move forward only as rapidly as you desire and are willing to put forth the efforts.

I think there burns within most individuals a desire to gain omniscience, but this will vary from individual to individual. So, if you would gain a very large portion of omniscience, you will be required to work, and when you have gained even a small portion of this, you will have gained some progress in becoming the individual that you would like to be.

Omnipotence is gained in proportion to omniscience. When you have gained a small portion of both, you will no longer be subject to environments that are undesirable to you. Nor will you ever need to want, or to look to charity for your support, for those things will be under your control. You will no longer find yourself plagued by physical disorders for those too, you will be able to control.

So, my friends, if you would gain these abilities and the knowledge to make them work at your will by not using slipshod methods but using methods that are straightforward and to the point and bring results rapidly, then you will work, you will search and you will find. If you desire knowledge, then use the law. Demand it from Deity and it will come to you in such forms and quantities that will suit your ability to receive. For nothing comes to us unless we seek it, and are willing to do the work that is necessary to master this knowledge.

As I leave I extend to each of you my most sincere love and blessings. May each of you find that which you seek, and gain the knowledge and wisdom to use it wisely for the benefit of yourself and mankind.

Go in peace, beloved ones, go in peace. Walk in peace. ☸
