**August 3, 1974**

**Yaum:** Good evening to you, my friends. It is my privilege to spend a few moments with you again. You have a very nice group tonight. I extend my greetings to our friends here who have not been with us for some time. We hope you shall be able to be with us more often. Now, what would you like to discuss tonight?

**Questioner:** We have heard in the news that our gold supply has been moved from Fort Knox and secreted away to a supposedly secret location in Switzerland. There has been much conjecture about whether this move resulted from a meeting held last April by the World Bankers. I would like to ask you if they were influential in this?

**Yaum:** You can be assured that they are in on everything that takes place that has anything to do with your monetary system and your economic conditions. There was a large meeting of this group here in your nation just a short time ago and many of these decisions were made at that time. You do not have a very large supply of gold as you already know, and there is some fear in these groups concerning the conditions in your nation and what could happen once the people are aroused enough. They are taking great precautions to protect their precious wealth, for this is their god, they have no other god. Power is their god and they use material wealth for their power. So this should not be too surprising to you.

**Questioner:** When we read the article on the "Vitamin Crunch" we realized more deeply the truth of the things you have been telling us for years.

**Yaum:** It is difficult for you to realize that these things are upon you for you have always thought of them as being out here in the future. Now they are coming closer, they are affecting your life, they are here and you naturally now are beginning to have more concern. But your Great Master gave you the signs of the times and said that when you see these things occurring, the time draws nigh. You do not have to look very hard today to see them occurring. There are wars all about you, all these things are taking place.

**Questioner:** We value and have deep respect for the teachings that have been given us although we really didn't realize their deep meanings.

I am not all-wise. These are things that have been given to you long ago. But your people have been thinking of these things as being in the far distant future, so it is difficult for them to realize that they are here now, that they are taking place. Famines are taking place. There are nations in the world that are starving to death and living in famine conditions now. Even the conditions in the countries that have better standards are worsening constantly. You have a big drought occurring in your country today which is going to affect your food supply greatly.

**Questioner:** Concerning our food supplement business that was designed by the Higher Beings to give those who were interested, the economic support necessary while serving their fellow man. How can this be accomplished with limited supplement sources available and the highly inflationary economic situation? Can one support one's self in the future while serving in this manner?

**Yaum:** That all depends. We cannot always predict exactly what people are going to do. Many have taken advantage of the opportunity offered them and have gotten themselves into a position where they will be able to survive better, others have not.

**Questioner:** You mean that by having gone into the business wholeheartedly and making this their source of income, that they would be able to survive better?

**Yaum:** Yes. Others have not needed to do this, they have had other interests, other sources of income, other obligations that have been more important to them. So you see, it all depends on individuals. Opportunities are given for all of those who care to take advantage of them. Your world conditions, as they develop, are going to affect everything, you see. The sources of the food supplements are going to be more difficult to obtain because they will continue to dwindle.

**Questioner:** That is why I wondered if we would be able to continue to support ourselves in this manner?

**Yaum:** The time will come when you will not be able to. You will not be able to support yourselves in many things, quite a few things in fact, because there will not be supplies to enable you to do this. There will come a time when you will be fortunate to have a crust of

bread, unless you have supplies. I would advise anyone at this time to prepare, to put in supplies.

**Questioner:** But without the money to purchase supplies to store, this is difficult to do.

As this is part of your system this is something that you have to work out. It is in many cases, a matter of deciding what comes first. You must place your priorities where you want them, you must decide what is most important to you. Many people who have surpluses of what you call money, are storing supplies and taking advantages of these opportunities and there are many who do not believe that famine situations can arise so they put their priorities in other areas. Each one must decide for himself.

**Questioner:** Will you comment on those who say that they don't have the money to purchase storage supplies and don't know how they can get any, so all that they can do, is to pray and have faith that they will be taken care of.

**Yaum:** If you feel that things are hopeless, that you cannot do anything about anything, then you are praying without faith and action. Prayer without action is worthless. You ask for help from those in other realms but they cannot do these things for you either. They help those who help themselves. You cannot expect to sit back and not do anything and have the Higher Beings do it for you. Those are not the ones that they help, they help those who help themselves. The law works for those who have faith and who act, it will not work without action. You have been told through many generations that faith without works is dead. If you expect to sit back in the easy chair and just think positively, that everything will be taken care of, you are going to be very much disappointed because it just does not happen that way.

**Questioner:** If pressure was put on the Government by the people to not sell our food to other countries, would there not be enough to supply us, despite droughts, et cetera?

**Yaum:** If your people would bring enough pressure to bear, they could demand and bring action. But do you realize how hard it would be to get enough people to do this? Since they do not do this your Government is not really representing the people, they are doing the will of the special interests who put pressure on them. Now if enough people would vote those out of office who do not do as the people wish and vote in those that do, you would have a government of the people. But selling your surpluses is not all of the problem because there is also karma entering in. For many years your government wasted food in great quantities, tremendous quantities paid farmers for not growing food. While they were doing this, people in other parts of the world and even in your own country, were starving. They did this to hold prices up so that they could make more money. If, on the other hand, they

had produced normally, treated the land as it should have been treated instead of draining it dry, and had they fed the hungry you would not have the situation that you have today.

Nature is reacting and will continue to act more and more violently, as is borne out by the records of increasing drought, floods year by year. You are actually paying your karma and you have passed the point of no return. You could narrow that if enough people would actually do something about it.

Polls are taken, asking people this and that but that is as far as it goes as they are not actually making their voices heard by their so called representatives, and this inaction has been going on for years. So the problem now has gotten to the point of karmic reaction, working through nature to bring about nature's reaction to her laws that have been broken.

**Questioner:** Will we have shortages because of the breakdown of our economic system, also?

**Yaum:** Yes, you will have both. Your monetary system will collapse and through the reaction of nature your food supplies will become very low.

**Questioner:** I see the economic and the social breakdown very close now. Is this drought in the middle-west now a part of it?

**Yaum:** This is a part of it and floods, storms, droughts, will continue to destroy crops and bring about great food shortages.

**Questioner:** What shall we do here in this area? Try to raise our food?

**Yaum:** This is one way of helping, but even then if you are hit with storms, floods, droughts, it will destroy that also. But those who stand in the Light and work for good, will receive help. It is altogether possible for those who walk in the Light to have a producing piece of ground, where others may fail. The hand of Spirit can do many things for those who are deserving.

And I say to you, my friends, that the time is not far off when each will be called upon to stand forth and be counted. There will be two factions: those who walk in His Light and declare themselves as such, who stand forth and witness to the Christ, regardless of the situations that may face them. And there will be many who will not do this, who will not have the courage to stand. They will yield to the beast, they will receive the mark of the beast and they will receive favor from him. But their glory will be short-lived, very short for they will perish in the wake of the storm.

Wrong can never win over right. It may seem to win and many of your people have been misled in this way. They point out, "look at this person and that one, look how well they get along. Yet they do everything wrong, they break all the laws." But, my friends, the day will come when they will pay, but those who walk in the

Light, though they may suffer great pangs, eventually will receive the true rewards that last, the rewards that do not fade away, the peace and joy that lasts forever and forever. So, my friends, be prepared to stand forth and be counted for sooner or later you will be called upon to do this very thing.

**Questioner:** When we get into social chaos, will organized religion be a threat or a help?

**Yaum:** Organized religion as such, will not be of much help because it is too over-organized. You will see a great breakdown in organized religion but true spiritual understanding is going to grow. Those who have come into an understanding of Truth and who tried to live Truth as they see it and as they understand it, will be the ones who will lead the crusade. This does not necessarily mean that all will have the same understanding, but there will come the realization of a one God, of one Truth to those who are true to the Truth as they understand it, who try to the best of their ability to try to follow the teachings of the Great Masters of the past. Then also, my friends, at the time when it seems that man cannot survive, that all of civilization will be destroyed—and there will come such a time—there will be an intervention by Greater Powers and your Great Master will appear again to lead those who are sincere and who are trying to follow the teachings, to bring to them greater understanding, greater truths, and to lead them into a new Light, a Light that is brighter and greater than any Earth man can conceive of. This will be the great salvation that will really bring forth your new religion as you call it. But organized religion, as such, will crumble.

There will be many leaders appear, many Antichrists and I warn you be aware of these. Be very much aware because many of them will be individuals of great power, will demonstrate great power, but who will not lead the people to righteousness. They will exploit them and they will lead them into paths that are not for their highest good. But if you use the rules of discernment you can draw a judgment. A great Master does not exploit his people, he does not drain off their resources and use them for his own pleasure. Those who do this will sooner or later have to pay for their misdeeds. A great Master is humble, he tries to serve his followers, he does not try to have them serve him. In his attitude he is the least among them. So when you use certain guidelines of this type you can easily draw a conclusion. Many people are hypnotized into following an Antichrist, and to use one of your American expressions, "They sell them a bill of goods."

**Questioner:** Sometime, when there is a convenient time, will you please comment on the out-of-body sexual experiences that Robert Monroe writes about in his book?

**Yaum:** There are all kinds of beings on the astral plane and the situations that occur depend on the consciousness of the individual. So this is no different

in many ways than your physical plane, especially when you get into the lower astral.

**Questioner:** Someone who has had out-of-body experiences said that he had never heard of anything of that nature and didn't know that that type of experience existed.

**Yaum:** He has not encountered anything like that because he does not travel on that plane.

**Questioner:** I felt that the book did not present anything of a constructive nature as it encouraged out-of-body experiences without proper supervision and guidance, and without a positive purpose, which then can result in a very dangerous experience. Thank you for your comments.

**Questioner:** We want to thank you and all of the Teachers for the information, guidance and inspiration that you have given us through the years. We are very grateful.

**Yaum:** We only try to bring these things to your attention and to present them as we see them. We do not claim to have the answers to everything, we have not reached the ultimate. If we have been of any help to you we are happy and we are humbled.

It has been my privilege to spend this time with you. I would like to thank you for inviting me into your household and I extend to each of you my blessings, my peace and joy.

I call upon the Great Masters to send forth their light and love to each of you. May each of you find your place in His Light and find great joy in fulfilling your part in the theme of universal love.

Go in peace, my friends, go in peace. ☸
