

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Special: Beloved, once more I come among you to bring to you the blessings, the love, and the understanding of our Brotherhood.

My children, you now find yourselves in an era of time where great opportunities await you. Many times in the past we have emphasized to you the very great importance of cultivating awareness, of becoming aware of all things about you and within you, to cultivate this to a point where it becomes a very great part of your being, of your consciousness.

It is necessary to reach a point where you no longer find it necessary to be aware that you are aware, for you live in a state of awareness.

Now, my children, this will mean many things to you. For, in this state of awareness, you will become aware of yourself, of the innermost functioning of yourself, and soon great revelations begin to dawn in your consciousness. For you become conscious of the great powers within you that need only to be brought forth through becoming aware of them. And through this awareness, soon you will find your entire life taking on a new look. You will soon find yourself, not living a life of existence, but a life of great abundance in all things, abundance in knowledge, in wisdom, in understanding and in all needs. You will also find your concepts of your fellow man changing. You shall see him in a new light, as you shall see all other things in a new light.

You will find that all things have taken on a new and different appearance to you. You will no longer find yourself involved in many of the entanglements of life that you have experienced in the past, for these things will have lost their importance to you, and you shall see these things as they truly are. No longer will you find yourself worrying or fretting over the things that have, in the past, caused you disturbance. You will find you are discovering peace. And once you have slightly tasted the cup of true peace, you will be anxious for more, and you will know wherein to find it. Few men of Earth have found true peace. Many claimed to have found but few have really found peace. When you have found true peace within your being, there will be no doubt in your heart, or in the hearts of those with whom you come in contact, for this peace will glow from every

cell of your being, and none can mistake it. This joy will stand out for all to see. When you have touched the life of another they will not soon forget your passing, for their life will have been sweetened by your passing.

You are now entering the cycle in your evolution where these accomplishments can be more easily made by those who are sincerely seeking, for great help is coming to you in many ways, and as you move farther in the corridors of time, these influences will become more and more apparent. So, my beloved ones, give yourself sincerely, let your efforts grow stronger day-by-day. Be honest with yourself and with your creator. Attempt in every way to weed from your consciousness those things which will hinder you in your growth and search. Pluck from your mind all resentment, fear, hate, anger. Leave not one stone unturned to take these things from your mind and close the door, close the door tightly against them. For where these things exist, the seeds of truth do not grow well.

No, beloved ones, seeds of truth thrive only on love, on positive thinking, on self-respect. In other words, clean soil is needed for truth to grow. So let us plant these seeds in fertile soil that they might come forth and bring us into the great cosmic consciousness that all of us are striving to reach, for only in this great cosmic consciousness can we become one, one in the great Brotherhood of Man. Only then can we join in brotherhood with the many, many civilizations of the cosmos. And only then can we begin to enter into the knowledge, the wisdom of the universe that awaits us there.

I have been blessed again by the opportunity to spend this time with you. May each of you grow rapidly into an awareness that will bring you into the cosmic consciousness that you have so long sought. Peace, Peace, Peace. ☸
