### March 29, 1975

**Yaum:** Good evening to you, my friends. It is my privilege to come among you again. It has been sometime since I had the privilege of being with you. I see we have some new guests here tonight. I wish to extend my special greetings to each of these and I should also like to extend my love and greetings to all of you. I have received the love that you have been sending to me. Now what would like to talk about?

**Questioner:** Will you tell us something of your recent activities?

**Yaum:** I have been doing my usual work in following the events that have been taking place in your civilization. The whole situation in your entire civilization is very sad.

**Questioner:** We are especially saddened by reports of the children who are victims of war and famine.

**Yaum:** The effect on the children and the weak who are victims is a part of your world consciousness. It has gone on all through your civilizations, but you have to realize that often certain individuals come into this lifetime for a very short time in order to fulfill some of their karmic debts. It can be a matter of combinations of national, race, and individual karma. In order to understand why certain individuals or nations, or certain groups of people have experienced these things, you would have to be able to look back through many generations and perhaps many civilizations. You see, atrocities have gone on through many thousands of years in your civilizations, therefore there are many karmic debts to be paid. In other instances, children are just victims of situations, but this is not always true.

**Questioner:** I wonder if I will ever be able to accept this suffering?

**Yaum:** You won't as long as it does not fit in with your thinking. You have certain mental blocks and fears that cause you to not be able to reason out these things. Man is to blame for the suffering of animals also, because when man fell he brought the animal down with him. Therefore, since the animal was in a lower vibration, he fell into the "survival of the fittest." Animals have karmic patterns, too. This is why, I believe, that the space people told you at one time that when man

kills animals he is interrupting their karmic patterns. So these things are very complicated because they take in thousands and thousands of years, perhaps even millions of years.

**Questioner:** Can you tell us anything about the significance of the pyramid that appeared here three times in succession during meditation?

**Yaum:** I only know slightly about this as I have not been with you for some time, and I have only picked up what is in your mind concerning this. But it was an energy device and evidently was used here to give you a certain type of energy. There are some symbolologies connected with this also that I cannot give you at this time because it is not my privilege to do so. But in due time this symbology will be made clear to you when you are ready to receive it, as it does have a dual purpose.

**Questioner:** Can you enlighten us about how we were apparently able to participate in a ceremony on the etheric plane while we were conscious in the physical and were not aware of this happening?

**Yaum:** You were not experiencing it while you were conscious or awake as the ceremony took place at another time when you were in the sleep state and you were taken to another dimension. It was shown to the boy here later during his meditation, because he had not retained any recollection of it either.

**Questioner:** We are relieved and glad to know this because you have advised us not to delve into the subject of split consciousness.

**Yaum:** You do not know much about this as it gets very complicated and beyond what you would be able to understand and accept. We do not feel that it is well to bring things to you that would be beyond your concepts or your ability to conceive. There are many things that you have to learn yet, believe me, but until you are ready it is better that you do not try to understand.

There are many things that you do not comprehend in your present state of development. As you go into the New Age, those who reincarnate and those who will make the transition into the New Age will have a greater capacity to understand these things. Your brain capacity and your consciousness will be expanded and

you will be able to comprehend many things that you are not able to comprehend now. The Master Jesus told His disciples before He ascended that there were many things that He had not told them because they could not have comprehended them. Comment: We understand that and we appreciate the wisdom that is used in not giving us information prematurely that we cannot handle or assimilate. We appreciate being spared this mental and soul confusion.

**Questioner:** In the night classes that many attend while in the sleep state, there are many there who come from different time zones in our country. How is that accomplished?

**Yaum:** The time zones in your continental United States have only a three hour differential from coast-to-coast. Another thing that you need to understand is that time is much different when you are on the etheric plane. We can accomplish as much there in a few moments as you would here in several hours.

**Questioner:** Do you have any more information on what the government is going to do about announcing the existence of UFOs here?

**Yaum:** They are not sure yet about what they are going to do. There are two factions there, you see, and there is much friction between the two as to whether it should be released, how much should be released, and how it should be done. They are working on it and there has been a great deal of concern among the top government people because so much has happened in this field that just cannot be explained away in any other manner. There are many who are putting pressure on them to come out with the truth or at least to admit something about the existence of these things, but they are going to try to play it down as much as possible.

There is going to be no great announcement that will shake the world. It is going to be done rather softly. They are not going to talk about the concepts put forth by the Space People concerning the solutions to our energy and economic problems which would go against the grain of our power structure. They feel that they will be making a great step if they just admit that they are here and that perhaps some people have been contacted by them. Perhaps they may inject an element of fear into it. As I have said, there are two factions there with much friction between them, but it looks as though they will put something in to cause fear.

You can never be sure just what pressure is going to be exerted. You see, it isn't just those in government that are trying to suppress this thing, it is the world powers who are in back of it. They are the ones that would be hurt the most, you see. Of course this is only a part of what they suppress.

**Questioner:** If the government says that we should avoid the aliens and we continue to claim contact with

the Space Brothers, would we then be possibly persecuted for this?

**Yaum:** In times ahead there will be a period of time when anything that you admit that goes contrary to the establishment will be held against you. All of these things will have to do with the "sign of the beast." They are already collecting data on the people, and this will continue to go on. If it is not done in one way, it will be done in another. Sooner or later your money system will go and already your financial institutions are preparing certain methods of exchange that will not require money because they see the handwriting on the wall. You are now dealing entirely in counterfeit money. Your paper money is just paper, for it is not backed up by gold or silver. Even your so-called silver coins are no longer silver. They are worthless metal. This can only go on so long in a time of inflation before it reaches a point where things will be changing in price daily and even hourly, and your money will no longer have any value.

**Questioner:** I was wondering if it would be of any value to build a physical model of the pyramid you mentioned earlier and have it available to generate energy as well as its etheric counterpart?

**Yaum:** The pyramids can be used as an energy source, but you would have to know a great deal about Astrology and you would have to have a series of pyramids to develop energy that would be usable, and this would require pyramids of great size. These pyramids that are upon your planet at this time could be repaired and used if you had the knowledge, but I could not begin to go into what that would take.

**Questioner:** Would these have to be in line with the magnetic field of the Earth?

**Yaum:** That and the lines of force that permeate the whole universe. You have positive and negative lines of force that travel throughout the universe, so the pyramids would have to be positioned correctly to coincide with these and be in conjunction with the poles and with certain planets, etc. It gets into very complicated mathematics and knowledge of the energies of the universe. There are many things which have to tie in together in order to do this, but once this is done, you have a source of free energy which can be used.

**Questioner:** Would this be usable for a source of healing as well as electrical power?

**Yaum:** I do not know of any such device that would be useful for that, but I don't think this would be necessary to anyone who becomes knowledgeable of universal laws. You would not need it because this energy is all around you and can be concentrated and used for that. You see man has only a very slight concept of the powers of his own mind. I am not speaking of the brain now, for the brain is not the mind. You will have a mind long after your brain is deteriorated.

**Questioner:** Since this is our Easter season, would you speak to us about our Master Jesus and the events associated with his crucifixion?

**Yaum:** He was perhaps the greatest Master Mind to come to Earth in your civilization. He understood the laws of nature and was by His great understanding able to use these laws at will. This is why He was able to perform all the feats that your civilization calls miracles.

**Questioner:** I am intrigued with the thunder and lightning that occurred when His soul left His body, and how even the ethers were affected by this event. Could you go into this?

**Yaum:** Yes, it did affect the ethers, but a lot of this was brought about by other powers and other beings. You see He was not involved in this by Himself. You recall that when He met the other beings while He was praying on the mountain, His disciples saw these other beings there with Him. They were discussing the events that were going to take place and many were involved in this. Even the Roman soldiers who were guarding His grave saw these beings come there and they were nearly frightened to death.

You see, your Bible does not describe many of these things in detail. You have to understand that stories that were given by His disciples and followers were not put in writing for many years after they happened, so they could not have possibly remembered all the details. You have to agree that each one has told it a little differently. Some are more detailed than others because some remembered a little more, but the story as it is given is quite vague.

Perhaps the earthquake and all that happened there was emphasized because it is something that you would remember because of the fear associated with it. These things were brought about to show the people that there was great power there. You see, He demonstrated how He could control the elements when He stopped the storm at sea, when He walked upon the waves, etc. So if He could do that, why could He and others not create an earthquake or a storm, you see.

**Questioner:** Was this done mainly to impress the onlookers then?

**Yaum:** Yes.

**Questioner:** This is much different from the Charles Fillmore interpretation of these events.

**Yaum:** You will find many different interpretations. Many of your religious and metaphysical teachers will have different interpretations. It is not that important really.

**Questioner:** The fact that He sacrificed His life and overcame death did have its effect on the ethers and on the race consciousness, however, did it not?

**Yaum:** It had its effect on the race consciousness, and it affected the ethers to the point that it shook things up.

And now, my friends, I think I have stayed my time. It has been my privilege to come among you in this manner. I wish to extend my gratitude to each of you for accepting me into your presence. And as I leave I would like to extend to each of you my love and try blessings, and I would ask that each of the Great Masters pour forth their love and blessings to each of you. As you go forth in your daily work may you find peace. Go in peace, peace, peace. ☸
