

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: Greetings in the light, my friends, I am Oxal.

It is my pleasure to speak with you again. Perhaps we shall be contacting you more often than we have been. This shall depend upon certain developments and circumstances. We are in your skies noting carefully the activities upon the surface of your planet. We feel it our duty to try to impress upon those whom we can reach the great urgency of the times, it seems that when we spoke with you in the past and stressed the urgency and the nearness of the time, in most cases because these things did not come about within a few days or weeks, it was dismissed and forgotten. But I believe as you look back you realize that all of these things are coming to pass. You see, my friends, it is later than you think. Great accomplishments are not done in moments. Your people did not reach their point in time where they now are in a moment. It is a result of past thoughts and deeds. And now the law is reacting. The cause has been. The effect is now. And the effect will grow more severe as time marches on.

I need not go into all of the details of the events to come, but I say to you that they are now unfolding before your very eyes, you have only to look and see. He who has eyes to see can see, and he who has ears to hear can hear. It is coming to your people from all sides, they are being warned. They are being given the solution to their salvation, yet they have not the eyes to see nor the ears to hear. They continue to move on in the same vein. Continuing to eat, to drink, to be merry and to laugh and jest at the very thought of their having to pay a price for these things. Yet your Father-God is a loving and merciful Father. Even now if these were to repent and to change their ways, the Karmic debt could be greatly reduced. It saddens us that your people have not the eyes to see nor the ears to hear, will listen not. It saddens us that any civilization should have to suffer the penalty of these laws, when the way has been so obvious. It saddens us that we cannot change these ones. We can only appeal, can only point the way. We cannot force anyone to follow the path of service, of love and of understanding. But I say to you my dear friends, "the Kingdom is at hand." He who would enter in must quickly prepare the way. For the

hand upon the cosmic clock is rapidly approaching the midnight hour.

Ye are all Sons of God. Each of you. Realize this my friends and act accordingly. I say unto you, act accordingly. This is done by living His laws, by purifying your mind, your body and your soul that you might enter in. Let not any thoughts of lower vibration enter your mind. Mans two greatest enemies are fear and hate, therefore these things must be alleviated from your minds. Let not anything bring anger, fear or doubt to your mind. Let not those who spitefully use you, who condemn you or falsely accuse you, do not let this arouse anger, hatred or fear in your heart. Your great Teacher pointed the way. His words were true. He pointed the true way. Read His words and follow His path that you might be delivered. There is nothing that he accomplished that you cannot accomplish. All things that he did, you must do, sooner or later, why not now. Why not NOW, my friends. You have the will to do these things. Pray that you may have the Faith. These are the keys that unlock the door to the Kingdom. They are the keys by which you will gain entrance. You have them. Develop them. You can if you will to do so. Your Creator gave you free will to use. as you would. Why do you will to do the things that bring disastrous results rather than the things that bring you love, joy, harmony, happiness and peace. Why, oh people of earth, why.

Your science is reaching great heights in its development, yet your scientists through lack of wisdom and love are pouring destruction upon your civilization. Much better would it be had you never gained this knowledge, for great knowledge is not the thing that brings man Peace. Great scientific achievements does not bring peace of mind, does not bring happiness, but only fear and destruction. And man has not the wisdom to use it. Better that you had not had it at all. This my friends, is what was meant by the statement "seek ye first the Kingdom and its righteousness and all those things shall be added unto you." We have a great task before us in helping your planet and your system through this crisis period. We are humbled to be of service to you. Our only regret is that we cannot do more. But would you have us infringe upon your will? This we cannot and will not do. We can only point the way, and hope and pray that you might see the Light and follow it.

Beloved friends, it has been good to speak to you again. As I observe you there over the beam, I see certain desires rising in your hearts, certain desires to do the things that you know should be done, yet I see also your being held back by attachments to the physical or the material things, the carnal things. But I say to you, my friends, you cannot build treasures in the carnal vaults that will last, for sooner or later they perish. The only permanent treasures that you can build is in the spiritual kingdom, for there they shall last forever. They are the only worthwhile treasures. I leave you, my friends, by extending to you the Love, the Light, the Understanding of my people. So be it. ✿
