**Teacher:** We, of the world of spirit, have not laid down the tasks we had when we dwelt upon the Earth plane. We have been initiated into certain work which is as important to us here as is yours on Earth. Our passing from flesh does not cut us off from the service we love, but we look to you, beloved, to yield us channels so that we can continue our service to mankind.

In your Bible are the symbols that contain the story of the soul of man from the beginning unto the end, or rather, until you have attained the goal for which your soul first took on a physical existence. In the story of the life of the beloved Master Jesus, these symbols are manifested. You can also find the same story in the esoteric part of all faiths.

Man is born into the world with soul and body and with the inner power which is spirit and His Spirit dwells within each one. When you sleep, beloved, your souls go forth into the spirit-spheres and seek their wisdom and knowledge, and also make the link with the history of former incarnations. During the day things may puzzle you and you are perplexed and do not know how to act or where to go. You remember the old adage, "When perplexed, sleep on it." During your sleep the answer may be given if it is wise that it should be, and in the morning your question is answered. "Seek and ye shall find." The Master spoke truly when He said these words, for the soul who seeks in prayer and in meditation will always find the answer even though the answer may not be exactly what he expected. Sometimes, also, the answer comes immediately. At other times many years may pass before it comes, but there is always an answer to the search of the soul.

As the soul evolves it yearns for more wisdom and for more of the Divine Light, so it prays for knowledge. A teacher may draw near from these spheres, or an evolved soul dwelling on Earth may receive Divine inspiration to go to the aid of the younger brother. No soul is left unaided. Always remember this.

The soul needs long contact with physical matter to enable it to use the power of the Creative Force which lies deep within its consciousness. All through the ages the Mystery Schools have guarded the secrets of

eternal life and these secrets are treasured as precious jewels in the hearts of those who have earned the knowledge of the power within.

We desire to give you certain teachings of the Brotherhood known as "The Great Silent Brotherhood," also known as "The Great White Brotherhood," the Master of which is Jesus Himself. These teachings we are giving in small groups in many parts of the world at this present time. The Master Jesus spoke a parable concerning a King who called his people from the highways and byways to the marriage feast. This is what is happening today and will happen until the year two thousand, for by then all people will be called to celebrate the "Mystical Marriage" between soul and spirit which has been known to saints, seers and prophets of bygone days. Formerly this marriage was a secret celebration but it will be in the future for all who come into the presence of the King.

In the parable as you will remember, the King noticed one guest who had no wedding garment, so he was not able to participate in the rejoicing. You may ask what this means. The guest was a soul who had not clothed itself in the garment of Light which was necessary at the wedding.

How does the soul prepare to celebrate the Mystical Marriage? By its life, by its acts of love. "Love one another." When a soul loves and serves its brother, that soul strengthens the link between its own spirit and that Great White Spirit, glorious and powerful, the blazing Sun of Light. By love, light pours into the soul and it thus builds the body of Light which is the wedding garment.

No soul, even though it leaves its Earth body, can enter into the life of the Spirit except it be clothed in Light. The whole purpose of your lives on Earth is to develop power through love. That is why Groups and Lodges will play a great part in the next forty years. Wisdom and love will become more and more needed. Love is the Light.

The symbol of the Cross within the Circle is one of the oldest symbols known to man. It is a symbol of initiation. The light at the heart center of each one of you—the light at the heart of the cross—blazes forth and forms a circle of light around you—the wedding

garment. The way to initiation is the way of the cross. This symbol of the Cross within the Circle, used by the Brotherhood, has a deep esoteric significance.

This doctrine of the Eternal Light has long been known and taught. In the life of the ancient Egyptians and also in ancient Atlantis, were the same ceremonials. Every two thousand years your Earth receives a new baptism with the spiritual sunlight. When this occurs the Sons of God, the Illumined Ones, the Wise Ones, are sent to help humanity.

We have entered the Age of Aquarius, the Age of Love. The teaching of St. John, the beloved disciple, will be the teachings of the New Age.

See the conditions on your Earth today. We say to you: Messengers, Initiates from the spirit realm, are coming to quicken the vibrations of their Earth brothers to help them rise in spiritual consciousness so that they will be ready to greet the Master when He returns.

Many of you wonder whether the Christ is coming in physical form again or whether He will come only in the hearts of the people. We reply: in both ways. The Light has first to become quickened in human hearts so that the Divine Son will be recognized when He returns as the great World Teacher.

Prepare the way, beloved. Rise and put on the garment of Light and live the life of service and love. Then will come the Golden Age. We tell you it will come. So again we say: prepare and be ready.

Learn patience. It must be learned on the material plane of life. Patience to comfort material difficulties, patience to know that all is in God's hands. Remember also that in this crisis in world affairs patience must be a prize jewel within your hearts. Patience must be coupled with certainty that God has all power and can overrule all the acts of man when once the lessons are learned. God takes no special account of those who are considered wise in worldly affairs.

Bear with patience all the difficulties and problems of life at this time but know that our Eternal Father, all Love and all Wisdom, holds all His children in His care. Right must eventually conquer, and justice—spiritual justice—will balance all apparent wrongs. Your Father is no respecter of persons but brings love, healing and peace to bear on human affairs, regardless of the color, race or creed of the ones in need.

You have wondered about the symbols that were given. The Cross within the Circle has been given above. Another symbol of the Brotherhood is the six-pointed Star. This is an ancient symbol. This Star is the symbol of God's love. It is also the symbol of brotherhood. To form this Star two triangles are interlaced—one points upward and one downward. The upward pointing triangle is the rising aspiration of mankind; the downward pointing triangle symbolizes the Divine Light coming down upon the Earth. The six

pointed Star is one of the oldest symbols known. It is the Star the Wise Men followed when they found the Babe. It is the Star of Christ shining in the Heavens at His birth. This symbolizes the soul of man rising upward in consciousness toward the unseen, the God consciousness descending the spirit of true brotherhood between Christ and man.

Think of the Father's will being the long arm of the Cross and your will as the short arm of the Cross, then at the point where these wills cross there will be an anointing and this anointing will be of the Spirit and consecrated with the peace of the Heavenly Father. When you are at peace with the Heavenly Father, then is the way made plain before you.

We desire to remind you of the work of the Great Silent Brotherhood who are drawing near to Earth to render service to their incarnate brethren. There are certain ones who have incarnated into physical matter even though they have earned their freedom from rebirth. They have returned as Teachers or Masters. They are recognized by enlightened souls as apart from those among whom they dwell. A purity of mind and a radiance of spirit mark them as having an inner knowledge withheld from most of the dwellers upon the Earth. They pass upon their way but their memory lingers with those who have known them, if only for a brief moment, as does the fragrance of a flower or the exquisite beauty of the sunset.

These Masters are now bringing the message of Brotherhood and Peace in many parts of your Earth. We bid you watch for them. Those who recognize them will be greatly rewarded by an increased inner radiance of spirit, and a harmony of beyond human understanding.

Infinite Immeasurable Love, our Father! We open our souls to Thee. We, Thy children, both those discarnate and those who dwell upon the Earth, bow before Thee. And, as we worship, our hearts become purified by Thy indwelling Spirit.

May Christ, Thy Son, rise up in every soul. Father-God, we pray for the incoming of Thy wisdom, and we would breathe out upon humanity the Spirit of the Christ.

We pray that we may love more perfectly, and that we may find true humility in the service of our brother man. May each of Thy children who read these messages feel contact with the Angelic Ones.

We pray Thee that where the Earth is steeped in the blood of sacrifice, the blossoms of peace may spring up and teach men how divine a thing is Brotherhood.

Amen. ✨
