

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Anthón: Peace be with thee, my beloved children. I am Anthón.

I shall take a moment to extend to you tonight my blessing. Since this is your season for exchanging blessings, I shall enter your custom and extend to each of you this blessing: May the words of this great being, whose birth you celebrate at this season, may the true meaning of these words awaken in the hearts of each of thee, and may the realization of these words bring about a new understanding that will bring into your life a great peace, and open for you new horizons on your journey down the corridors of truth.

And now, I shall withdraw and allow another to take my place, who, I know, has become greatly beloved by those of you who have come to know him. Our beloved brother, Yaum, is going to talk to you for a short time. May his peace rest with each of thee. Peace.

Yaum: Good evening to you, my friends, I am Yaum.

Once more it is my pleasure to come among you. It always gives me great pleasure to be among beloved ones. I should also like to extend to you my blessings. I know each of you, as you journey forward in your search, shall come into a greater and greater realization of what this great teacher was trying to tell you. However, a great many errors have been made in translation and in putting into writing his teachings. For, as you are all aware, a great period of time passed before his teachings were put into writing. But, be that as it may, there are still great truths in the writings. But they must be studied, meditated upon, in order to get the true meanings of what he was attempting to say, to teach to his people.

I should like, with your permission, to touch a little bit upon this being and other beings, to try to, shall we say, throw out a few remarks for you to think about. This great being came to planet Earth as an assignment from his superiors, shall we say. He is what is known as a Lord, and throughout creation of the universes, galaxies of the many systems, there are many, many Lords, Lord Gods. And this is how many of these terms come into being, back in other times. The true meanings of many of these titles have been misunderstood or misused, shall we say.

In the various systems, the solar systems, there are many steps of authority, just as it is in many of your governments. The term angel was used a great deal throughout your writings. An angel appeared to this one or that one and gave him certain instructions. These beings are beings or helpers, shall we say, under the Lord. The man whom you call Jesus would be known as a Lord and he is in charge of planet Earth, so to speak, attempting to bring this planet up through evolution into a higher and higher development of understanding. And in a system there are many Lords, and there are many angels.

I use the term "angels," because I am trying to convey to you what was referred to as angels in your early writings. I suppose the reasons your angels are shown with wings today, and were shown down through your histories, is because they come from space, and in those times, according to the understanding of those people, you had to have wings in order to travel through space, or through the atmosphere. So, they put wings on them, so they could fly. Now, these are helpers. They are beings who work under the Lord. Then, you have Lord Gods, those were the titles referred to. They have many Lords working under them, and so goes the chain of authority.

Beyond, and back of all of this, we know that there is one great Intelligence and this, my friends, is what has been referred to when some of the beings that have spoken to you, have mentioned the fact that they are an extension of this great universal Power, or Light, or whatever term you should like to apply to it. They have only a slight understanding of it, and I should have to say the same thing about myself, for my friends, the vastness of this great universe is quite hard to comprehend. Do you think you would agree with me on that?

The vastness is so great, so very great, that until man has reached great heights in his understanding, until his search for truth has taken him far up, it will be difficult for him to understand the true nature of what the ultimate Intelligence really consists of.

But I do not believe that it is too important at our level of understanding to try to grasp some of these things, for we must go step by step, and if we try to jump over a step or two, then we find great confusion arising in

our minds. So the things that are at hand, are the things that we must first understand and conquer. We have had presented to us great truths. You all agree your teacher, whom you call Jesus, who came here, left a great multitude of truths for you to understand, for you to apply in your living, and why not then, my friends, learn to understand these truths and the truths that are already here, that are presented through many, many channels. There have been many Masters who have brought great truths, who have written many, many writings of truth. Those of your people who have been interested enough in searching for truth, have read and heard many of these, and yet, they find it is difficult to apply them, to use them.

Now, why do they find it so difficult to take these truths and apply them in their lives? Well, my friends, from my own observation, I see that many people who are studying these things, are learning them clearly with their intellectual minds. But, when it comes to putting them into actual use, well, they say, "It interferes with this part or that part of my life," "I cannot do this because of the circumstances that surround me." And all kinds of reasons are found at this time why they cannot apply these, "I will do it at a later date, but right now I cannot because of circumstances." This, my friends, can go on for several lifetimes.

If man truly wants these things, if he truly wants the results that these things will bring, then he must put them into practice. He must use them to bring about that which he desires, or perhaps he does not yet desire as much as he thinks he does. When man truly does the things he really wants to do—and as a rule, when man really sincerely desires to do something, he does it—he does not let anything stand in his way; he does the things that he wants to do.

Now, my dear friends, I think I have taken enough of your time. It has given me great pleasure to come again among you, and I sincerely hope that each of you will decide definitely in your own mind what you want, and then get it. My most sincere blessings to each of you.

Peace be with you, my friends, Peace, love and understanding. ❀
