

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Hatton: Greetings to you my friends, I am Hatton. In love and light I greet you. We of the Confederation are always grateful to find among your people those who are interested, who are willing to accept us. We are grateful to all of you for your acceptance of us.

There is much to be accomplished among your peoples in the days to come. Your planet at this moment faces one of the greatest crisis in its history. We who have come here from other systems and other galaxies, have come by request, request from others in your system. This service we are happy and proud to give. We only are happy that we have the opportunity to serve you. As I stated, there is much to be accomplished among your people in order that we may bring about conditions of betterment upon your planet. We hope and pray each day that more and more of your people will see the light. It is only through these awakenings that your people can be prevented from bringing about their own destruction. It must come from the people.

Your heads of government, your world leaders have become so corrupt, so power mad, that now it is up to the people to demand and to bring about their own salvation. It is through those who through their convictions are willing to come forth, to come out from among the multitudes and stand forth for what is right and good.

Great changes which have come about upon your planet, have not been brought about by the majorities but rather have been brought about by the minority. Sometimes even by individuals who are strong in their faith and who are willing to come forth from among the multitudes and stand forth, regardless of the race consciousness, for that which they believe and know to be right.

One man, a few years ago upon your planet, was responsible for one of the greatest changes that has taken place in your civilization. One man, my brothers, who was not afraid to come forth from among the masses. If you think with the masses, believe with the masses, then you have lost your individuality, then you become one of the masses, one of the race consciousness. Seek the Truth and stand on it, my

brothers. Use your intelligence, that is why the Creator gave it to you.

We have made our appeal to the heads of your world government, to all of your world leaders. We have made great offers to them, but our offers are the offers that would improve the masses, improve your scientific achievements, allow you to live a new life, one of grandeur and of beauty, but due to your customs, your economic structure, your monetary system, they who have the power in their hands, are not willing to sacrifice their power to benefit the multitudes. Now we come to you the people, the power is in your hands. We do not advocate violence, but by making your choice to serve in the everlasting love and light, we can and will direct you in the ways of love and light, and through these methods, you can bring about the conditions that you desire.

My friends, you have no idea of your own thought power. This thought power when concentrated by the multitudes, by the masses, can bring about anything. There is much power in thought my brothers, much power. Our problems are all solved by thought. We have no need for wars or violence. When we have a problem, our people attack it in thought, in unison, and the problem dissolves itself. Think about this, my brothers, there is much food there for thought. This is only a slight glimpse of what can be accomplished once you understand and know life as it really exists.

These things, my friends, are the things we want to teach you, these are the things we are trying to bring to you. Our only hope is that your people will choose in the right direction. I believe I have given you enough to think about this time. It has been my privilege to speak with you. We shall meet again.

May you grow in the love and light of the Infinite One, and may His Truth flow continually through you. May you now and then get a glimpse of the grandeur that lies ahead. I know you will be awed by it.

Odina, my friends, Odina Vasu. I am Hatton. ☸
