Teacher: Greetings, my friends, greetings in the Light of Love and Understanding.

I am with you and have been with you for sometime as have two other of my brothers. Some of you have been aware of this. You have much discussion between you concerning your growth, your understanding and what your part might be in this great Plan. I shall be rather frank and specific with you tonight in this small gathering. But be cautious about your passing of this information. There is much mis-interpretation and much doubt is caused in the minds of others when you expound things that are beyond their understanding. Often it is a matter of ego or jealousy, so as you have so often been cautioned, use wisdom in giving out information, which is for you.

Each of you here on this night have come upon a mission. You have volunteered for this mission. You are not of the earth vibration. It has been your work in ages past to serve humanity, wherever you have been needed in times of chaos. You have worked upon many planets where there has been need for your services. You have seen great disaster many times, but this, my beloved brothers and sisters is your work. You would have it no other way. Many times you have volunteered directly from one mission to another, without periods of rest, you have felt the need was so great.

It is not easy, my friends, to move into a vibration such as you are experiencing here. It is much more difficult than it is for those who are conditioned to this vibration. Your problems oftentimes are much more difficult because you are not of this vibration. We, who are working on the other side, who have not had to incarnate in third dimension of bodies, are doing our part to help you through, but try to realize my friends that in order to overcome the vibrations in which you find yourself, it is necessary for you to establish between yourselves this love vibration of which we have been speaking. Concentrate upon this, for it is important.

Quite frequently, a volunteer is not successful in his or her mission because they become lost in this vibration. There is a great deal for you to combat here and being

in a third dimensional body does not make it easy for you. But as I have said, you have experienced all this before. It is not new to you, try to realize this, beloved ones, for I feel that through this realization, you can help yourselves.

Questioner: How far lost is one if they fail?

Teacher: I did not say you were lost, I said you can be, if you allow yourself to become obsessed with all the desires you are confronted with in this vibration. In this particular vibration, the economic structure which exists upon this planet, makes it difficult for one to place the spiritual above the material, for one not to separate the many phases. It is hard for one to realize that the Creator is all supply, the teachings, the religious administrations that are predominate on this planet, do not expound the theory that God is all supply. He is All things. They separate the material, scientific and many other phases of your society from the spiritual, whereas you know and I know, there is no separation.

Seek ye first the Kingdom of Heaven and all things shall be added unto you. That is what your religious leaders will read from their Holy Books, but do not truly teach this to their people. These things are passed over lightly, very little emphasis upon the real Truth, that exists.

We are working closely with many of you and one of the purposes of this is to see that you do not get lost in this vibration. We shall try in every way to prevent this. Each of you must establish this firmly in your minds ... drill this into your consciousness. You are God and with God all things are possible. Know you are master, and that your destiny is controlled by you. You have volunteered for a task and you shall complete this task. Nothing shall stop you. When this task has been completed, it is your privilege, beloved ones, to return from when you came and receive the well earned rest if you so desire. All of you here have worked together before and you have worked with many others. Many others with whom you are now working you have been with many times before. Some are not contacted yet, and others you have not. You have worked with many who are not here at this time. There have been times when you have worked on the other side and some of us have been where you are now.

You have had many, many experiences in this work. That is why you are here. You are qualified for thousands and thousands of years, these tasks. These tasks have been carried on by yourselves and others like you. Things you hear alone are not things of to which you talk a great deal, one does not, to use earth terms, brag of their accomplishments. They quietly serve. They are serving to a cause.

Questioner: Earth before? First time reincarnations here, I do not believe, oh perhaps it doesn't matter?

Teacher: Some of you have served here before, not all of you, but you have served on other planets. What is occurring here today is not unusual in the Universe. Millions of beings through the Universe are continually on volunteer missions such as these. Many of you have served before on this planet, not always in the capacity in which you now serve, but you wander, so to speak.

There are with you, tonight, two other beings, who I believe are being felt or their presence is being felt by two brothers here whom they have been in contact with. Are you aware? One moment please. ♀
