

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: Greetings in the Light, my friends. I am Oxal.

It is my privilege to again speak with you. I am going to speak to you tonight for a little while concerning our reasons for being here and for others being here also. The reasons which I shall give you will not only concern us but concern all of the others who at this time are working in this system in behalf of the solar system and especially planet Earth, as you call it.

The reasons are many. To begin with you are not only going through a cycle change of your planet but also a cycle change for your entire solar system. The only reason we are more concerned with your planet than the others is that your science has not yet advanced to the point where they know what is happening in your solar system. They have made many discoveries, they have learned much but they have only scratched the surface. They do not realize that your entire solar system is also going through a great change.

As your Earth goes through the cycles of what you call the zodiac in its travel around the sun, so does your solar system go through cycles of change as it passes through space around another center of great energy. Your whole system will be changed and will come under a new vibration. The energies of space that will be controlling your solar system will be of a different vibration and will have a different effect and influence upon the matter in the system. And when I speak of matter here I include all matter which includes also the physical bodies of man. Physical bodies can and do exist at many different rates of vibration and this is determined by the vibrations of the area of space that you are in at that given time.

Those on other planets in your system who have complete knowledge of what is taking place, realize what is happening and what is required to pass through these times without being unduly affected. Therefore they have called in help from other solar systems to aid in these times. They have chosen only those whom they know are qualified to give this service and we who are functioning in this service feel that we are privileged to be of service to our fellow man even though he is not of our solar system and perhaps may be different than we in many ways. Yet he is our brother and we have an

obligation to fulfill and we shall fulfill it to our fullest capacity.

Those of your system on other planets are especially concerned with your planet, knowing that you have little or no knowledge of what is taking place, only slight inklings, shall we say. The magnitude of the event is beyond most Earth beings comprehension. So they are concerned about your welfare and are going to take care of the things that you are not able to take care of yourselves. They are also concerned with the technical knowledge that your science has achieved without the wisdom and the knowledge to go with it. Power without wisdom can be very dangerous to a civilization. You have the power in your hands today to completely annihilate your planet, to disintegrate it, and it is only by the grace and the help of your elder brothers that you have not done it already.

There have been two occasions where the influence was exerted so strongly that it prevented this happening. However, we would not have allowed it to happen in any event. Our scientific knowledge is such that we can and will prevent the destruction of planet Earth. You have been allowed to have your petty wars, to go about your selfish and unjust ways. We cannot and will not interfere with the free will development of man until he reaches a point where he attempts to destroy his planet knowingly or unknowingly. Then he is jeopardizing the rights and the lives of people upon other planets in his system and this cannot be allowed. So you are being monitored, watched and influenced. When I say you I am referring to people of planet Earth.

Many attempts have been made in the past to bring about better conditions for your people. There have been those sent to your planet to help in scientific development that would raise your standard of living, that will bring about a better life for your people. They have not been well received. Perhaps I should clear one point here. When I say that they have been sent, they have come into your civilization through normal routes, they have incarnated into your system into your social system. But always when they have reached a certain point in development they seem to be stopped by those selfish interests who are not willing to accept all things for the good of all, but see it only from the viewpoint of selfish gain.

One of these great beings did a great deal of development in the electrical field for your world and your nation, especially your nation and could have given much, much more had he been allowed to do so. But when his developments began to cut across your profit system he was stopped, he was not allowed to go further, there was no interest. Many powerful men gained their power from his technical and scientific developments, yet he asked but little. About all that he did ask was to give you more. But when he reached the point of being willing to give that which would free the people and would cut across the lines of power, they were no longer interested in him. In other words, he was crucified, so to speak, and this has happened many times in many degrees, yet it always has happened.

You have had much more help from your elder brothers than you think or realize. I do not say this because any of us are looking for honor for these services. I only say these things to make those aware who want to be aware. We saw the need many years back. Perhaps I should state that somewhat differently. In the direction in which your civilization was moving the need was seen many years ago. We realized what Earth man was moving into we saw the situation that you now find yourselves in. Your air, your water and your Earth being polluted, your foods poisoned. We saw these things coming, we gave warnings, but little heed was taken. But having seen the need, influences were brought about for certain developments that would help and could help those who are trying to develop spiritually, who are trying to serve in the right path. We saw that there would be a need among these people for survival and so these influences were brought about so that certain developments would come about to aid those who needed aid in these changing and trying times.

So you see, my friends, we are not here out of idle curiosity, we are here to serve and to help. As we have stated in the past, those who have made the choice to serve his fellow man, to walk in the Light, we shall help, we shall guide and we shall influence. They shall be directed into situations that are for their benefit. But taking advantage of these situations, my friends, is up to you. The opportunities will be given, what you do with them is your choice, it is up to you.

Most of those who walk in the Light today are fairly well aware of the situations that they are going to face. So when help is offered and opportunities are presented that will help you to grow spiritually, to help you prepare yourself in any way, physically, mentally and spiritually, we hope that you shall take advantage of them. I have said enough.

I leave you by extending to you the love, the light and the understanding of my people.

I am Oxal. ❄
