These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Nathaniel: Greetings to you, my children, I am Nathaniel.

The New Age which has been spoken about so much in the past is now dawning upon you. The sun is in the horizon and the day is dawning. Great things are taking place that will affect your planet and its people.

There are those throughout planet Earth today who have for some time, perhaps as much as ten years back, felt a great urge, a drive within them to learn more of the reality of man, of who and what he is and how he functions, so that he might be able to teach their brother man a better way of life. And teach him a way to overcome his problems, how to have a greater understanding of himself, how he functions. This is taking place in many fields of science today, where there are those who feel this drive within them to develop better ways of doing many things.

In the art of healing great advances will take place with this decade. The opposition of the old will begin to weaken and they will have to give way to the new. They will find that it will not be possible any longer to suppress information and knowledge that can bring about a better way of life. These people are working very hard in preparing themselves and proving out their theories. The results of these efforts are beginning to show. I'm sure that some of you have already noticed this great change that is coming over planet Earth that is going to make for a better life.

Man must be taught the truth about himself, and those who cannot accept the new ways will fall away with the old and the new will prevail. Great knowledge is coming forth that will give man a true insight into the power that lies within him; the power to heal his own body, to control his own affairs. He is going to be faced with the fact that man alone is responsible for what happens to him. He has come and gone in civilizations and in races, in nations, etc. He has risen to heights and then has fallen. It is time man comes into the realization of why these things have happened and how he has brought them upon himself.

The Earth was created with all things necessary for man's well-being. Everything that he could need in the way of good, healthy nourishment was provided, plus

all the things that would bring beauty, such as metals and gems, woods, etc. But has man used these things properly? No, he has allowed his lower nature to acquire lust, lust for wealth, lust for beauty, for power. Eventually he loses sight of what his true pursuit should be and thus the race deteriorates, it falls because of his lust. Not only does it fall as a race, but he falls as a man, for he allows himself to become degraded, to pursue the desires of the lower self, the senses.

So man must learn all of these lessons, he must learn why these things have happened so that he does not again make the same mistake. For if he is to reach great heights in his wisdom, understanding, knowledge, his spirituality, he must soon be about his Father's work as eventually time will run out. And on the cosmic clock, time is beginning to run out in your evolutionary cycle.

So if man is to move forward and to accomplish these heights, his evolution must be speeded up. He has now reached the point where the evolution will be speeded up, and those who cannot keep up with the natural flow of evolution will find themselves falling farther and farther behind.

It would behoove all of those who are aspiring to reach heights on the evolutionary path to get on with the work, lest the bridegroom cometh and you are not prepared. If you are not prepared, the doors will be closed and you will be unable to reach the wedding house.

May the joy, the peace and the blessings of all the Great Ones be bestowed upon you now.

My love and my peace I give unto you.

May each of you grow rapidly in your search for greater truth, and may you be able to apply this truth to the benefit of mankind through service.

May your thoughts be ever not for self but for what you can do for your brother and all mankind.

Peace, peace, peace. ☸
