**Yaum:** Good evening to you, my friends, I am Yaum.

I have spoken previously to some of you here, so to those with whom I am not familiar, I will explain briefly who I am. I will state that for many years I have been a teacher in one of the Mystic Schools in what is known to you as the Far East. Some months back I came forth from the school and am now working on a mission among Earth men, attempting to do my part in raising the consciousness of Earth beings.

A great need—a great need there is upon planet Earth. Many of us who are working in this behalf, are hoping to ease the coming situations that Earth people face. I assure you that we, and I speak of myself and many others who are working in what you call the Etheric Realms, I assure you that we shall expend every effort possible to accomplish our mission. But we should also like to—your pardon, my English. Sometimes it is a bit difficult for me to express what I should like to convey to you, I am not as familiar as I would like to be with your language. We would like to solicit your help in every way possible in this effort, and each of you can do your part if you will.

You can help in many ways. You can help a great deal by doing as this being who spoke to you a few moments ago asked you to do, by sending thought waves of love and we mean by this, to attempt to make your every thought a thought of love, a positive thought, one that will bring harmony rather than discord into your earth's vibrations.

For many, many, centuries the negative forces have been predominant upon your planet, therefore a great deal of negativity has accumulated within your Earth's envelope. The events that have been taking place in the past few months, such as is going on in Africa and Cuba and many other places, are adding to this negative vibration rapidly, therefore it behooves Earth people to attempt in every way to counteract these vibrations.

To some of you, or to some of your associates, this may not make sense, but I tell you, my friends, and I tell you sincerely, this is a fact. Every thought that emanates from your mind is a definite force. It has power, and it has lasting power. Thought has much

more power than you think or realize, for you live in a world of thought. Whether you realize it or not, this is a fact. If it were not for thought, you would not be here, nor would the chair upon which you are sitting. Therefore, my friends, it behooves all of you to be very careful of what and how you think.

So you see, my friends, you can do a great deal to ease the situation which the people of your planet are facing, and we are asking you as a group of "Understanding" to help in every way you can, and do it continually by controlling your thoughts of selfishness, of jealousy, of hate that creep into your mind. When you feel these things rising up in you, cast them out and replace them with thoughts of love, peace, and happiness. Something that will go forth and improve the atmosphere about you. We are hoping that many, many, groups shall spring up all across the surface of this planet who will sincerely and diligently walk in this direction.

My friends, I must now vacate this instrument and return him to his normal self. It has been my pleasure, a great pleasure, to be in the midst of you tonight. I thank you for accepting me into your midst and for listening to me, to my dissertation, shall we say? I assure you, beloved ones, it has been my joy.

May the love and the Peace of the infinite one dwell in the hearts of each of you forever and forever. My love and my blessings I leave with you, my dear friends. Goodnight. ✿
