

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Antho: Greetings to you, my children. I am Antho. You have called and I have answered, but I only have a few moments to spend with you, so we must get right to the subject.

Questioner: We have been thinking, along with Ed G., of our trip to China, And we would like to talk to you or Yaum about that so that we can bring our plans up to date. Do you have any suggestions?

Antho: That has not come to my mind for a long time. I have been very busy and have not been in contact with Yaum for a long time, probably three or four months in your time. For quite some time now, there have been a great many changes, such as reassignments taking place in the Brotherhood, and this will continue for sometime in the future. In other words, we do not serve in the same capacity forever. Since we only learn by experience, we must have experience in various areas of service so that eventually, we can become full-rounded souls.

Questioner: I hope that doesn't mean that you will not be able to spend time with us?

Antho: No, it does not mean that; however, Center R, and the responsibility that I have to my charge here, is only a small part of my work, and this is true of the Circle R people who are involved in Center R. They have all received new assignments, also. As you know, it is very much the same here as it is in your world. When you are transferred to a new job with new responsibilities, it requires a great deal more effort until you become acclimated to it and learn the various aspects of that assignment. That is one of the reasons that I have not been in close contact with you, although, I am still in that capacity and I will continue to have a close relationship. However, until I get a little more acclimated to my new assignment, it will be more difficult for me to spend much time with you.

At this time, I do not know Yaum's status quo, and whether he is being affected by these changes or not; but I will endeavor to get in touch with him very soon and see what we can find out.

Questioner: Thank you very much.

Antho: I hope you understand that this happens to be a period in time when many changes are taking place, and this happens every so often, of course. No one is kept in a position any longer that is necessary for them to learn it, and then they go on to something else.

That is the status quo at this time, and I will endeavor to contact Yaum and see what I can find out. If possible, perhaps he will come and speak with you. I think I have heard from him since he last spoke with you, and there are lots of things going on in the world that require attention, many great changes are taking place, and many changes have taken place since he invited you to visit him. It has been a year and much can change during that length of time, but we shall see. I'm sure that if it is possible, he will extend his invitation.

Questioner: Some of us are looking forward to going with great joy and anticipation. It would be a great experience, if it is in accord with Universal Mind.

Antho: Yes, it would be quite an experience. You would see things that you have never seen before, and it would be an experience to spend time with him.

Questioner: I'm mainly interested in being in the presence of Yaum. I think it would be very uplifting and inspiring.

Antho: I know that he and a few others have had special work to do in China over the past twenty years or more. They have been very instrumental in bringing about the great improvements that have taken place there. We feel that the nation has been greatly improved by their influence, and the people of China are in a much better position than they were a few years ago.

Questioner: We thank you and wish you well in your new work, and we know you will succeed.

Antho: I must succeed.

Questioner: We hope that you will have time to visit us again.

Antho: I will. I am becoming pretty well acclimated to my new position and my new work now, and I will not forsake you.

Now I must depart, for I have other matters that require attention. I extend to you my love, my blessings and my peace. May you find within yourselves, very soon, that peace that you seek.

Peace. ♣
