

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: Greetings in the Light, my friends. I am Oxal.

It is my privilege to once more have the opportunity to speak with you.

Your civilization, through all the generations, has had the opportunity to choose, the right to choose. By and large, you have not chosen wisely. This is why you find your civilization facing the problems that it faces today. Your social science has been weak and is growing weaker. Your scientific advancements have reached a point beyond your capability to deal with them.

Scientific minds will always seek greater information and knowledge and when one seeks one finds. The problem is that neither of your sciences have been built upon a firm foundation. The spiritual foundation that is needed for any civilization to succeed has been grossly neglected. Through the development of the spiritual science will come the wisdom that is needed to handle the knowledge.

Some of the things that are being developed at this time by the scientific minds of your civilization are very disturbing to those of us who observe, for we realize that the wisdom to handle all this knowledge is not there. Oh, there are some who have the proper motives, who would not want to see these things developed for destructive purposes, but they are not the ones who are in power.

Man, if he is sincere in the search for knowledge and wisdom, can gain great knowledge, but there are certain paths that he must follow if he is to gain the ultimate of this. There are many laws that are known to those of great wisdom and spiritual development that could not possibly be given to anyone but those who have worked and developed their own consciousness to a point where they are capable of handling these things. This is why some of the knowledge that is held by the Great Ones has never been put into writing and never will be, and can only be passed to those who have definitely, and without a doubt, proven themselves capable of this knowledge.

Man has within himself greater powers than he realizes. He needs only to search them out through years of hard work and through dedication to the

service of mankind. Man can only make truly great accomplishments by this method. This can be done by anyone who is sincere and selfless, and is dedicated to the service of his fellow man. Selflessness is something that is little understood in your civilization, but as you grow on the path of understanding and wisdom you will begin to understand.

There is much that we would like to give to Earth people that could improve their way of life and raise their standards and give them greater opportunities, but we cannot do this until they are ready.

There is much that must take place upon planet Earth in order to cleanse your planet. A planet is an entity in itself, and the entity that you call planet Earth has become very ill. So, it will be necessary for her to cleanse herself and she is in the process of doing this. Once this process has been completed a civilization will emerge upon planet Earth that is much different than what you see at this time.

The new civilization will be built upon a firmer foundation. Our hope is that it will maintain that foundation, for no civilization can be stronger than the foundation upon which it is built.

The events that will occur in the next few years upon your planet will complete this cleansing, and a new Heaven and a new Earth will appear. The vibrations and energies to which your planet will be subjected will bring about a new species of man. Already these energies are being felt. Already they are having their effect. Flow with them not against them. Prepare for the new and leave the old behind. Man will always be in a constant state of change. If he resists the change, it is much more difficult for him than it is if he flows with the change, trying to understand what is happening.

May each of you, as you climb the ladder of Truth, ever find new horizons that will bring you into a greater realization and understanding of life and what it is all about. Understanding one's self is man's greatest task. When he truly understands and knows himself he will have the greater knowledge, for it all lies within each of you. Your path is to search it out.

I leave you by extending to each of you the love, the light and the understanding of my people.

I am Oxal. ♣
