**Teacher:** Greetings to you, my friends.

I come to you in love and understanding. I shall speak a few words on the law of giving. Earth people do not have an understanding of universal laws, therefore they have difficulty in living the laws. They defy the Laws instead of cooperating with them. When they have great need, they give less and receive less, and their need becomes greater.

Many of your people have doubts about how the people of other planets live in plenty. Those who understand the laws go to great lengths to give, to be of service. Therefore, they have great abundance and a never ending supply of all things.

Man must realize the importance of thought in giving. He shall receive according to his attitude in giving. Many have received, not knowing how or why, and it is not important that they do know. It is enough that the law is working. It is not for us to determine the way the law works, for it works in many mysterious ways, but know the law works and that the source of supply is unlimited.

Many of your people give for a material compensation, with the expectation of receiving. They give in great selfishness, lust and greed.

When they give with this thought in mind, that that they receive will not bring good, eventually. There are many universal laws that your people do not know about. These laws were made by your creator for your own good and they are just, for your creator is the law. He only asks that you live the laws.

Peace be with you, Peace. ☸
