

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: Greetings in the light, my friends, I am Oxal.

As we are sitting here in space outside your solar vortex observing actions, events, as they are taking place upon your surface, we see man of Earth in a state of almost utter confusion, a state of great insecurity. He is almost as if sitting upon a razors edge not knowing which way he shall topple. Your great powers stand in readiness at any moment to release the wrath of the energies which they control. We hope that someone in desperation or confusion, does not push the button.

Man of Earth still has time to save himself from much disaster, suffering and mental agony. If man of Earth will but agree to eliminate war and will accept the help of those who stand ready to move in upon a moment's notice, great changes can be made upon planet Earth with much, much less suffering and confusion.

We of the Otavana shall not come into your atmosphere, we shall not land upon your planet, for all of our duties can be performed from where we stand, but there are those from planets within your system, who are physical beings as are you, who can and have walked among you and rubbed shoulders with you. There are those who stand ready to come to your aid as soon as you of Earth extend your hand of friendship, show your willingness to receive them in love, and they will show the way. They ask nothing in return except your friendship, Could any people be offered more, I ask you, my friends? Yet your people, by and large, have turned them away and refused to accept. Many attempts, many offers have been made, yet each time the result was the same.

Beloved friends, the process of dividing the chaff from the wheat has begun in a small way. As you have been told planet Earth is destined for a cleansing. This must and will take place, for in the Creator's plan for this system, certain changes must occur. planet Earth has lagged behind for many generations

Yes, I must even go farther and say for several civilizations, man of Earth has not chosen wisely, therefore he has lagged behind.

Time is now running out, the cycle is turning, and Earth as a planet must move with its sister planets into the new vibration and location in space. Great solar changes are about to take place in your system. A cycle of changes that does not often occur. As we have mentioned before that is our purpose in coming into your system at this time, to aid in this change.

This change will be more difficult for planet Earth because of her lag in evolvement. Spiritual understanding is at a low ebb, therefore the change will be more difficult for this planet. For those in your system who have progressed and have an understanding of what is taking place there shall be no difficulty and they are only, as are we, interested in making it as easy as possible for your planet and its people.

We regret that so small a percentage of the population of your planet will move with it into the new Age of brotherly love of justice of understanding, of peace, for when these events have passed planet Earth will no longer be the same. Life as you now know it will not exist but rather an atmosphere of love of understanding. Man shall understand and know his brother. He shall live for the benefit of all, his efforts will be spent in this direction. No more will its people destroy one another. No longer will they live in hate, in suspicion, in jealousy. All these things will vanish. A new Age of justice will prevail and your system, your solar system, will take on a new look, for all will change.

My friends, let this new peace and understanding grow rapidly in the hearts of each of you, for where else can love begin than in the heart of the individual. No man who establishes within his own heart love and understanding need have any concern for the coming changes. He shall ride the crest. They may fall on his right and on his left, but nothing shall come near him. This we have pledged to all of you who make this decision, and we stand upon our oath.

I leave you, my friends by extending to you the love, the light and the understanding of my people.

I am Oxal. ✿
