These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Oxal: Greetings in the light, my friends. I am Oxal.

Questioner: Greetings, Oxal. You are welcome.

Oxal: I see some familiar faces here tonight from a few years back. My greetings to you and my love and greetings to all of you. It is our pleasure to again have the opportunity to talk with you. We are sitting here in space, observing the action taking place in your solar system, and especially upon planet Earth. It rather saddens us that so few upon planet Earth have any awareness of what is taking place at this time.

All the opportunity has been presented in many ways for your people to come into a realization of what is happening in your solar system, yet they have not chosen to learn. They have ignored the signs and refused to admit or recognize that anything is taking place that is beyond the norm. The awareness is only with a few. Percentage-wise it is very small. Yet, if your peoples could have listened, investigated and searched out the truth, they could have avoided much of the unpleasantness that will come upon them.

Fear can be a great enemy to mankind. Your people at large have had a great fear of what they do not understand, and this has held them back in their evolution and has brought upon them many things that could have been avoided. We have attempted for many years in your time to awaken your people to the realization that they must make a choice, and many have responded to this awakening, have realized that there was a choice to be made. They have even known the choices to be made, yet it amazes us how many have chosen the path of the carnal or the materialistic path.

Some, like those of you here, have chosen to follow the path of service, to attempt to the best of your ability to serve your humanity in the best way that you can, and in making this choice you will be given much help in the times to come, in the changes that will come about on planet Earth, when help will be needed by those who serve. I mean physical help will be needed to avoid some of the things which could otherwise not be survived.

We, as many others, stand ready to aid in these situations, and when the need arises, we will be there with the help that is needed. We will not allow the beautiful planet Earth to meet the destruction that was met by another great planet in your solar system. This cannot and will not be allowed. But without eventual intervention it looks at this time like it would surely happen. So, rest assured that in the final moments, we will be there.

This was promised by your great Master a few years ago when he trod your planet. And at this time of intervention, again he will come forth upon the clouds and again show you the way. And he will aid you in establishing a new kingdom upon planet Earth—not a kingdom as you know a kingdom, but a kingdom based upon the Law—the laws of your Creator.

And your new civilization, if it continues to function by these laws, will grow into a civilization that will be a great civilization, a civilization of justice, of peace and goodwill between all men; a peace that has not heretofore been known upon planet Earth.

I leave you, my friends, by extending to you the love, the light and the understanding of my people. I am Oxal.

Questioner: Thank you, Oxal. ♣
