

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Yaum: My friends, it is my pleasure to come among you. All of you today are facing a new horizon. You are receiving energies that are motivating within you certain desires: desires to search, to know and to experience. Though much of this knowledge and wisdom that you seek has been known to you in other lifetimes, the very important knowledge was known very far back in other civilizations many thousands of years ago. This knowledge is buried very, very deep in your memory bank, yet the fact it is there, gives you the courage and burning desire to seek for it.

As you search and seek you will receive and what you receive will only help you to bring to the surface the things that are there. Some call this Universal Mind, Spirit Mind: call it what you may, it is there and if you are to function in the coming times, it will be necessary for you to know much of this, to have it at hand where you can use it.

The new civilization that will emerge upon planet Earth, will be built by those of you who bring this knowledge to the surface of your conscious mind. You would not be able at your present state of development to do this on your own. So you are being helped by those in other densities of life who have greater knowledge of these things, have greater knowledge of the mind and how it works. And they are working in behalf of all of you who are sincerely seeking and seeking with the purpose in mind of service to mankind.

This is being done in various ways. You are being given and led into channels where you can receive certain information that will be beneficial to you in bringing some of this knowledge out. And as we have mentioned before, you are also being taken upon inner planes in spirit at times of your rest and being taught many of the things that will be beneficial to you in the future. So as you move along the path you will find more and more knowledge coming to you. You will even find yourself at times coming into a realization of certain truths or facts of truth and you will wonder where it came from, and how it could have come so suddenly, yet it is there.

But it is necessary for you to always maintain balance, balance in all things. You are living in a three

dimensional world and you have certain responsibilities, certain things that are necessary for you to do in order to fulfill your responsibilities in this world in which you live. So it is necessary to keep a balance between that and whatever else your searches may take you into.

Do not seek phenomena. Do not seek psychic development.

All of these things, when they are sought and promoted at the wrong times and with the wrong motives, can produce very unsatisfactory and dangerous conditions. You should never try to force anything. As you grow in knowledge, wisdom and understanding, these abilities and these centers will open of their own accord and you will have the wisdom and knowledge to handle them. Developing the love center first is of utmost importance and when that is done the other centers will open naturally and you will have the wisdom, understanding to handle them wisely.

There is a great deal of the seeking of phenomena, of psychic knowledge and development occurring today in your civilization. Many are walking in fields of which they have no knowledge. They are encouraging others to do the same, and many casualties are occurring because of this. "Seek ye first the Kingdom and His righteousness and all of these other things will be added."

My friends, I leave you by extending to each of you my most sincere love and blessings. I ask that the blessings of love of all the Great Ones be bestowed upon each of you. May each of you find peace, joy and love as you journey along the path of truth.

Go in peace, my friends, go in peace, peace. ☸
