**March 26, 1966**

**Yaum:** Good evening to you, my friends:

It is my pleasure to have a leisurely chat with you, an informal one friends. Do you have any particular subject that you would like to talk about?

**Questioner:** Could you comment on the New York blackout? And the recent sightings?

**Yaum:** The blackout was a demonstration by the Space Brothers and your Government is aware of the many sightings although they do not admit it. The Air Force says it was swamp gas but we need not go into that as you are aware of these conditions that have gone on for years and years. They are beginning to find it more and more difficult to find explanations as you can well see in the explanations that they make.

**Questioner:** Will the truth be known in, say six months?

**Yaum:** Perhaps in six months, perhaps in many months. But the time is fast approaching when the truth will become known. It will become more and more difficult for them to explain away these happenings that you see.

**Questioner:** Will the truth be known when our people land on a planet? It looks like it will be a long time before this happens.

**Yaum:** The evidence will become more clear to the people as time goes on, as your expositions into space become commonplace, the truth will gradually seep out.

**Questioner:** Why the sudden increase in the middle west of UFO sightings?

**Yaum:** As time goes on this will occur more and more all over the Earth to make people aware of them. There is no great reason for sightings in any one particular location; it is just part of the overall plan. This is also occurring in many other parts of the world, but you will not hear about them. There have been many instances in Russia, China recently but this does not come out in your publications. As time goes on there will be more such occurrences to the people in Europe. Your news media are much more controlled than you realize. What

occurs in other parts of the world is not always published.

**Questioner:** How about the earthquake in Red China?

**Yaum:** It was much worse than is known. I am at this time in this area. It was much worse than any has ever been so far. They are keeping it very quiet. They do not want it to become known as other countries might take advantage of their weakness.

**Questioner:** Was there a great loss of life?

**Yaum:** Life is worth very little to them. The loss of many people is very meaningless as they are so overpopulated, but I will say that the loss in lives has been close to a million people.

**Questioner:** What about damage to the earth?

**Yaum:** The damage is very extreme, property damage very extensive but not as it would be in your country as their housing is so inadequate, so meaningless. They are digging great ditches, burying people in any way that they can as these things must be taken care of rapidly. It is much worse than you can imagine. There was no tidal wave as it is not a coastal area but the loss of life and property was very, very extensive.

**Questioner:** Are you familiar with the story of Capt. Mel Noel? Is his information correct?

**Yaum:** That of which you speak is a true story. These instances actually took place. The Colonel is now with those of the other planets and he will, in a few months, make contact. The men in your Government have made great efforts in attempting to conceal these contacts from other planets and other solar systems. There are many reasons for this which I will not go into now as you are familiar with this situation.

**Questioner:** I have known for ten years or have had the feeling that at some planned time I would be called upon to perform certain activities that would include many people. I am wondering if I will be doing this?

**Yaum:** This will transpire but this is not in the immediate future. There are many changes to come about on your planet and as we pass through periods of time, there will be these occurrences. The area in which you now dwell is soon to experience quick changes—very soon. The day and the hour cannot be

known but I will say this, that the great change in this area will come within less than two years. Will that be close enough? I cannot tell you the exact time.

**Questioner:** If we are aware of the eruption of Mount Pelee or Vesuvius, will that be enough warning?

**Yaum:** Yes, after that happens, the earthquake will occur within ninety days and those who have eyes to see and ears to hear will be warned and those who have not shall perish.

**Questioner:** I have a strange feeling that at that time I should stay here.

**Yaum:** Your feeling may change in the coming times.

**Questioner:** Since we have a new member with us, is there anything that you would like to say to him?

**Yaum:** The time has come when one has to change what is necessary to change, rapidly. Man has for centuries had the opportunity and the privilege of choosing. He still has. He can either choose to serve his humanity, to become a creature of love, of light and of understanding or he can choose the path of materialism. Your planet and its people largely have chosen the path of materialism and God has become a materialistic God. Upon your silver coin it is stated, "In God we Trust," but your people no longer trust in God, they have placed their trust in the material, in the atom bomb, in the Air Forces, they no longer trust in God.

Your great nation was established upon these principles by your forefathers, but you have departed greatly from these principles. In fact you have departed so far that your civilization, as a civilization, has passed the point of no return. Had your civilization departed from their search for materialism and directed their search in the direction of understanding, your civilization would not face the predicament that it faces today. It would not stand upon the brink of destruction but it would be blossoming into a new and greater understanding, into a realization of life, into an oneness with Creation.

**Questioner:** Are we pushing our new one too much?

**Yaum:** You cannot push anything to anyone. It is a matter of consciousness. One wants to become a better and greater person or he would not want to have greater understanding. He will want to know the Truth and this is all that is required, a consciousness of sincerity, a searching for Truth and understanding.

**Questioner:** Our methods and ways are so different, to him.

**Yaum:** Your great Master, called Jesus made this very emphatic in his teaching: that he would open the way and he practiced and acted the laws, the Truths. The way that your records are recorded, they are mystifying to some but if any of you are willing to spend a little of your time in searching for these Truths you will find them therein. For instance, if a small group is willing to

spend a few hours a week in searching for Truth, in studying, for instance, the *Aquarian Gospel*, many would be willing to come in to those meetings and share their understanding. But, my friends, the effort is up to you, we do not force another. You cannot force upon anyone the Truth for Truth stands upon its own and no one can destroy Truth. Truth is—and none can change that. No one can make you choose, each one must make his own choice to search.

**Questioner:** What if you are a hard believer?

**Yaum:** The only thing that is required of one is sincerity in searching for Truth and an open mind in this search. If one thinks that he has all of the Truth then his chances are mighty slim. None has the entire Truth in this state for Truth is ever-expanding but sometimes it comes slowly. You see, my friends, you are thinking of time and measuring time by a lifetime, which in the expanse of time is next to nothing. Life is eternal, it does not begin with your life here nor does it end, so search for Truth is a never-ending thing and goes on and on and on. The only requisite is a sincere search for Truth rather than, a search for material things.

**Questioner:** Perhaps we just confuse him? There must be a better way to help him.

**Yaum:** This depends upon the individual and their own search for Truth. Truth is not something that you engulf in an instant; it is an effort and a search. You can go step-by-step just as you climb a ladder. Each link brings you to a new and better understanding. It is of great importance to make this climb. Some progress fast, some slowly, but steadily more important things are grasped. Occasionally you fall back but you get up and try again. There is much to be learned, to be accomplished.

It is so difficult to lay aside the old and accept the new but again it is not too important as to how fast you climb, it is just a matter of time. It all depends upon the desire in your own heart to know and understand the Truth, so be not concerned, it takes time to absorb these things, so live the Truth each day as you know it.

Sometimes these people that we think are not altogether grasping and absorbing new things like we think they should, suddenly awake and understand very quickly. They change very rapidly when you least expect it. Everyone has their strong and weak points, so be not concerned as we all have our high and weak points.

**Questioner:** Do I have to search for Truth?

**Yaum:** No, you do not have to search for Truth, you can wait as long as you want to, to know the Truth but eventually you will search as all mankind must climb the ladder. But you may take the next million years if you want to because all men were created to do as they choose; it is entirely up to you. It is no one else's problem. You may stay where you are as long as you

wish but you will not be happy there forever. You will, sooner or later, desire the Truth and you shall search and you shall find. No man stays stagnant as no business stays at one point, it goes forward and backward. Man is the same, he is not content to stay at one point for long.

**Questioner:** Perhaps suffering makes one search for Truth?

**Yaum:** Suffering is an experience. If you had never experienced suffering, how could you possibly understand anyone who was having this experience? Man experiences many things in his evolution. How else could he learn and grow?

**Questioner:** Do you know if it is possible that some of us could be helpful if evacuation becomes necessary in the next two years or could it be later on?

**Yaum:** As far as I know, there are no plans for evacuation with spacecraft in this area but I am not qualified to speak about what you are asking. There are possibly some plans that I do not know about. But at some later dates when greater changes will occur, there will be some evacuations on other parts of the earth.

**Questioner:** Will the land changes to occur within the next two years here extend as far as Salt Lake City?

**Yaum:** Yes.

**Questioner:** Are you aware of the surprise and pleasure that we experienced when our youngest displayed so much knowledge and interest in his Teacher and the Space Story? And who also helped to enlighten our new one?

**Yaum:** He knows much more than he tells. He doesn't tell all of the things that he thinks deep within his heart.

And now I must leave. It has been my pleasure to be with you and perhaps we shall meet again at a later date. I would like to extend my love and blessings to each of you: May the Masters of the Universe bestow upon you their blessings and may each of you in your search for Truth accomplish that which you desire to attain.

Peace be with you, my friends, peace, peace.

So be it. ☸
