Yaum: Greetings to you, my friends. It is once more my pleasure to come among you.

It has been sometime since I have been with you. It has not been possible for me to do so as I have had much to attend to and take care of in the work at I am doing. I wish to extend to you my gratitude for the love and light that you have sent to me and I assure you I have appreciated it very much.

There is a great amount of work to be done in the world today. There is a great need among your peoples and I should like to talk to you for a few moments concerning this and what part that you might play in it. Each of you in this work have received knowledge, understanding and as you receive you should also give.

There are many among your people today who are confused. They have received from your various institutions many teachings which they cannot put together and have them make good sense or good judgment. They cannot put it to work in their everyday living. They are not taught how to do this.

Often they are given such answers to their questions as this: "There are things that we are not supposed to know, for the laws that worked in the days of the great Master do not apply in these days." Many of those in authority in your religious organizations do not have the answers to many of the questions and especially the ones that the young people are asking today. The young people today are not satisfied with the answers that are coming from the so-called authorities in the field of philosophy.

So, you see, there is great need today among your people and this presents an opportunity for you to serve. I realize that you are serving in this manner to some extent but I do not believe that the need is being met. Friends, it is not well to hide your light under a bushel. Your brother man is not benefitting from it when you do this and neither do you. So, if you would receive in great quantities then you must give in great quantities for as you give, so shall you receive. The harvest is ready but the workers are few. That is why I have been so busy, you see.

There are many who are ready to receive the Light of the Christ, there are many who are hungry for this knowledge, who want to know how to receive the light but they are not finding what they are looking for in most in your present establishments. Your great Master is calling you.

He is asking you to work for him, to gather the sheep together, to bring them into the fold that there might be rejoicing. Let the Christ Child come alive in your heart, accept it as your shining light. Let it come into full unfoldment that your light might shine forth and brighten the lives of those with whom you come in contact. Are you allowing this to happen within you? Are you really letting this Christ Light come to life in you and shine forth?

Do you know one way that you can tell? Look at your own face in the mirror and see if it is shining forth from you. Yes, my friends, it is visible when it is active. It radiates great happiness, great love and peace and this is bound to show in the countenance of anyone who possesses it.

So I say to you, my friends, let this Christ Light shine forth in your life. Let he who was and is the all in all come into your heart and rule your life, that your will might be his will and then express in complete a oneness with his will.

For he who has aligned his will with the will of the Father will express the Christ Light for he will be doing only that which is of the Father's will and not of his will. So, my friends, encourage the growth of this great love in your hearts, feed this fire with every thought and deed that you can that it might grow brighter so that each day might find it brighter and brighter until it has reached complete fulfillment.

May all the Great Ones pour forth their blessings upon thee and may their light shine upon you and give thee courage and wisdom in your quest for greater love and understanding.

My peace and my blessings I leave with you, my dear friends. Go in Peace. Peace, Peace, Peace. ♣
