

*Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.*

**Hatton:** I greet you, beloved ones, in the Love and Light of the Infinite Creator. I am Hatton.

As each of you grows in Understanding and in Love, many, many of the now mysteries shall unfold. It is difficult for us, in the manner in which we must communicate with you, in using words that you understand, to convey the exact meaning of many things. Also, each of you must remember that in working through an instrument, we are also limited in our expressions. In communicating in this way, as you know, we are using the brain of the instrument. In other words, we are operating through a physical brain. Therefore we are limited. We are limited in many ways.

As you grow in understanding and are able to receive by thought and are able to receive clearly—when a complete unity is established between your intellectual mind or the brain and your higher consciousness—you shall receive much more clearly, for you shall receive pure thought.

There has been discussion on the interpretation of the message received from our brother Oxal. The main point of this message, beloved ones, is that there are no boundaries. Boundaries cause much difficulty and much confusion. You see one of the difficulties upon your planet today is that boundaries are drawn everywhere. Practically every individual draws boundaries.

You purchase a piece of land and you draw boundaries around it. You say my property begins here and ends here. This is mine, you are not to intrude. You have national boundaries. You have many, many boundaries. These boundaries are a hindrance to you.

These boundaries are even carried into the thinking of earth people. You are told you must not think about this or think about that. That is not for you to be concerned about. You are told certain things by your leaders, your government leaders, your religious leaders, and that is as far as you are to go. You must not question beyond these things, for we are the authority and we draw the boundary here.

This is important. You see, the messages or the lessons, I believe would be a better term, that are

brought to you are thought provoking. They often go deep and you must seek for the lesson therein.

Truth does not come without work, nor does understanding. For understanding comes by experience and you must work and seek these experiences and analyze them carefully, for too many times, the pure lesson of the experience is lost. It is lost in various ways. Many times, our elation over an experience causes us not to analyze it thoroughly, to search deep for the lesson there in. And many times the experience is dissipated by talking about it too freely. Be careful where you share your experiences. Do not cast your pearls before the swine, for these experiences are dear to you. Do not waste them. Share them only with the knowing ones, not with those who would dissipate them.

It has been my honor and pleasure to again be with my dear ones, for each of you here is near and dear to me. May each of you have great experiences in the days ahead, and may each of you reap great benefits from them. My Love and my Blessings I leave with each of you.

Odina, beloved ones, Odina. Vasu, Borragus. I am Hatton. ♣
