Oxal: Greetings in the light, my friends, I am Oxal.

It is with great concern that we view the happenings upon planet Earth today. There are certain powers who would bring great fear to the hearts of Earth people by making great displays of their power. It is sad that these people are allowed to pollute your atmosphere to this extent, to cast these great quantities of pollution upon your people. As a result of this, soon you shall see great increases in cancer and leukemia, and many other unfamiliar conditions will arise in your people in their physical bodies.

If these people who are bringing about these things realized the karma that is being poured upon their heads, they would hesitate somewhat in their actions. But, in their mad pursuit for power, they lose all sense of responsibility for their fellow man, and thus mankind suffers at their hand.

This should never be, that a civilization should have these things cast upon it by a small minority of its people. These people who are toying with these energies are like small children playing with dynamite. We have given warning to your people of the results of toying with these energies, for these are the pure energies of the universe, and are not to be tampered with by man. And when he violates these laws, he can only bring suffering and destruction upon himself and, his fellow man.

These events, unless more control is brought over them, will eventually bring destruction to your people. Your scientific minds, in the majority, know very little about these energies and the destruction that can be brought through their use. The effects of this detonation in such quantities can bring great havoc to your earth structure, much greater than they can possibly realize.

All in our power is being done at this time to try to bring influence upon these feeble minds to bring a realization to them of their responsibilities and a realization of what they are doing to their brother man. But many of these minds are so lost in their pursuit for power that they have become possessed by a great madness.

We sincerely hope that we shall not have to intervene physically to save planet Earth, but certainly at this

moment there is no reason to believe that we may not have to do this, I say to each of you, use your own power of mind to concentrate upon these individuals and help to bring influence upon them. For each mind that is concentrated upon them and influencing them, will add that much to what we are doing. These individuals who are bringing about these conditions among your people, will definitely not be among the remnants of civilization of Earth, for they have a long way to go in their evolution to towards self realization.

My beloved friends, I speak not these words to bring fear in your hearts, but I feel that each of you are capable of receiving truth as it stands, and that each of you, realizing the truth, will do your part in helping your people to avoid further discomfort and exposure to the powers that be. You can send thoughts of light and love, plus periods of concentration towards these minds, for you have power in mind. All is mind, and in this mind you have power.

By concentrating your thoughts of influence upon the powers that control your people, the powers that are behind your wars, the powers that bring about these conditions, concentrate your influence upon them. And if enough people will do this, the influence will be felt. We, as outsiders, can only use such methods at this point, and your power of concentration will add to ours.

We do not wish to see this unnecessary suffering brought upon your people and many attempts have been made, but seemingly in vain, to point out the folly of these things to your leaders, to point to them a better way. Yet, it seems that little heed has been given to our warnings.

There is, among your people, a great many who, through the fear that has been brought into their hearts, are attempting to persuade these leaders, yet, little heed is being given these people at this time. But I shall predict that this great fear and unrest shall increase until your people are protesting in great masses, and it is altogether possible that the influence of these great masses may reach those who are in power before it is entirely too late.

I admit to you, my friends, this has not been a pleasant conversation to listen to, yet one must face the truth. For, unless we face it, we are only hiding from it, and

we do nothing about it. Conditions are not changed without action, nothing is accomplished without action. So, beloved friends, it is time for Earth people to act, if they would prevent these things.

I leave you by extending to you the love and understanding of my people, and I extend to you my sincerest blessings.

I am Oxal. ☸
