**November 6, 1971**

**Yaum:** Good evening to you, my friends.

It is my pleasure to come among you again and to spend some time with you. First, I should like to greet our new guests here tonight that I have not had the pleasure of being with before and I welcome you to our midst. I should also like to greet our old friend here from Detroit. It is a great pleasure to once more be in your presence and I should like to extend a special greeting to your number two son and please give my special blessings to your number one son, too. He is, I know, making great progress in his spiritual development. I am aware of this and I want to extend to him my encouragement and suggest that he continue on the path that he is now seeking and if he does so he shall rise to great heights in spiritual awareness and understanding. Please convey this to him.

Now, my friends, I promised sometime back, to give you some information concerning the work that I am doing, so I shall try to give you some information. I could not begin to cover all of our work, but I am working with an organization, you might call it, or a group, that numbers one hundred and thirty-five individuals. Some, as myself, are working here both on the physical and the etheric planes. Some are working entirely on the physical plane and some are working entirely upon the etheric plane, which is necessary to accomplish our goal.

Now, as I have said, our duties are many and varied. But I shall concern this little talk entirely to the work being done here on the physical plane upon your planet. As you know there is much taking place today. You are moving rapidly in a downward trend and I speak of your civilization in general. All through the ages civilizations have come and they have gone. In your civilization nations have risen and nations have fallen and they are continuing to do so. Some of this most of you here have witnessed. There has been only one reason for this. That is, a civilization or a nation begins, usually on a very solid basis or foundation, as your country was founded, which we shall use as an example. The leaders who established your country established it upon a spiritual foundation and this was followed to a great enough degree that your country grew and prospered. I do not say that it was followed to

the ultimate, but it was followed to a great enough degree to cause your nation to grow and to grow well. You prospered and your people continually had a better way of life.

But the thing that happened and has always happened, that as people receive more prosperity, as they grow in material wealth, they begin to become selfish. Their desire increases for more material wealth. Greed begins to increase. People began to think in terms of self. Great power organizations developed. In other words, your people became more and more materialistic minded, desired more and more material wealth and gradually lost sight of the need that man has for spiritual development. And when this happens to a civilization or a nation, that they become so power-mad, so materialistic they destroy themselves. As you know, this is exactly what is happening to your civilization today.

Now we are concerned with this and we are concerned with the welfare of Earth people. We are trying in every way to aid them, to ease the results of their madness. We are not as concerned with the ones who are developing this materialism, the power-mad groups, as we are with those who are trying to walk in the Light. We are interested in helping them, to ease the burdens which are being brought upon them by these mad interests. Therefore, we are recording and keeping records of everything that happens on your planet. In the political field, in the monetary field etc., not a meeting takes place among any of these groups, that not one or two of us are not present to record exactly what takes place there. They are not aware of our presence, but we are there. We also are attempting to bring about influences upon certain individuals in their decisions that will affect great masses of people. Sometimes we are successful, sometimes we are partly successful, sometimes we are not successful at all.

We attempted to bring about enough influence among your government leaders to stop the test that took place today. We were not successful. We came reasonably close but were not successful. There is a great battle taking place today between two great forces, the forces of Light and the forces of darkness who are also working upon both planes. Their

influences are being put forth just as are ours. There are many leaders in your civilization today, because of their power-madness, because of their materialistic desires who are very easily influenced by the forces of darkness. Many are completely under the influences of these forces and they have become of such a nature that the Light does not reach them at all. They live and work in complete darkness, as we speak of it. These we attempt to reach but are seldom successful.

We also are concerned and working with many, many groups of Light seekers upon your planet. Many groups are being contacted as you are being tonight by members of our group. We attempt to bring them information and encouragement in their search for greater Light. Often we guide them, influence them into paths that are beneficial for them. Some of you here have been influenced and guided in this way. Sometimes you have been aware of it, sometimes you have not. You have not always reacted as we would have liked, but here again, when a choice comes we can use a certain amount of influence. But the final choice must be yours, we cannot direct your life for you, we can only help, directing you would be infringing on your own rights. But I will say that the forces of darkness do not respect the laws of the Creator. They have no scruples when it comes to directing someone in the direction they would like them to go. I will not go into that further for I know this has been spoken of many times and explained to you.

Much has been done in the past and is being done now to help those who are seeking on the Path, to help prepare them for the times ahead, to give them something to strengthen them and to give them the power and strength that they will need in these times. We have said many times that these times will become much more trying than you now think or realize and one of the reasons we are attempting to prevent as much of the type of thing that took place on your planet today (*Amchitka nuclear weapon underground test*) is the harmful results or effects of it that will take place in the future. For you see cause does not react in effect, sometimes, for a period of time.

You recall that in your prophecies in your religious histories, the times were described that are about to come upon you. How the Earth would be plagued with pestilence, the sun would darken etc.. These will be the effects of such happenings as took place today, which will bring about pestilence, diseases that are entirely foreign to your medical profession. Already these things are occurring. Your peoples are having many diseases today that your medical profession does not recognize. It was not in their books, you see. Only those who are strong, physically, mentally and spiritually will be able to survive these times. As stated in your Scriptures that if these times were not cut short, no living thing would survive on your planet.

All of this is being brought about by man himself. God is not punishing you, you are punishing yourselves. God does not punish anyone, but the laws of Creation, the laws of cause and effect are bringing these results about. Without a cause you cannot have an effect and to have an effect you must have a cause. If man of Earth in this civilization had truly built a civilization on a spiritual foundation, none of this would happen. You would have today a planet that would be a paradise. You would not have the great storms that you have, the great earthquakes and many other things that occur upon your planet continually; instead you would truly have a paradise.

In the new age to come man will have a somewhat better understanding of this, not a complete but a much greater understanding of this and he will have a more perfect civilization. It is man's greed, his desire to satisfy the lower self, the carnal man, that brings about his destruction. Man must, if he is to live in peace and joy, learn to live with his fellow man. All things must be for the good of all, nothing being for the benefit of the few.

We are attempting in every way to bring to the Light Workers opportunities to serve their fellow man. Opportunities to grow spiritually and one of the ways to grow spiritually is in serving. Man, in the final judgment will be judged to a great extent by the service he rendered to his fellow man. For as the Great Master said, "As you do it unto the least of these, you do it unto me" and this is so true, my friends, it is so true. What each one does with the opportunities that come his or her way, is entirely up to them, for you and you alone can make the choice. You will find as you have found before that you are continually faced with choices and the higher you go on the ladder of spiritual development, the greater will become your choices, the more responsibility will you have and greater and greater will become your tasks. But your strength will also become greater, your wisdom will become greater, your ability to perform your tasks will become greater. For the Father does not ask anyone to do what they are not capable of doing. He only asks that you serve to the best of your ability and to your fullest capacity. Your rewards will be in proportion to your service to your Creator.

Now, my friends, I must leave you. I should like to extend to each of you my most sincere blessings. May each of you find His way, may each of you recognize your task and do it well that your rewards may be great.

Peace be with you, my friends. May the blessings and the love of all the great Ones be invoked upon you now. May each of you receive these blessings, each according to his or her ability to receive.

Peace, my friends, peace. Go in peace. ☸
