**Oxal:** Greetings in the Light, my friends, I am Oxal.

As Athens has just told you we have a little surprise for you tonight. Perhaps it will not be so much of a surprise to most of you there, as we see you have practically all new people. But to the instrument and his mate at least we can call it a surprise.

We have one aboard our craft tonight who has spoken to you before. Since he was with us at this time we thought we would give him the opportunity to again speak with you. We had intended to bring him through at your last meeting, but our contact was spoiled by interference. So tonight, since our contact is good and he is still with us, I will give you our dear friend and brother, Mong Ling. I now step aside.

**Mong Ling:** Greetings to you there at Center R, Mong Ling here.

It is my privilege and pleasure to again have the opportunity to speak with you. Since those among you are mostly new at this time, I will tell you that I am from the Planet Venus. We upon Venus are very much interested in the planet Earth and in helping your planet. We have a great love for both your planet and its people, for most of us upon Venus were dwellers on planet Earth at one time or another. Venus is the next step from Earth as those of your planet finish and graduate from your schoolroom and move on to our planet.

We of Venus are still of a physical nature. We have physical bodies, but they are somewhat different from those of planet Earth. Since our environment here is different, it would naturally require a different body structure. Also, our bodies are of a finer vibration and structure. They vibrate at a different rate and would not come within the spectrum of your physical sight. So in many respects our physical bodies are different, yet they are similar in most ways.

To those who could view us, we would look much the same as do you. We have learned to overcome and master the physical. We can lay it down and pick it up at will. We can travel without it and we often do. Many of us come to your planet on occasions and leave our physical bodies at home. Many of us are among you

now. We have taken up a physical body that is adaptable to your planet's atmosphere and gravity. So you see we are among you as are many others from other planets, doing what we can to help planet Earth prepare for the transition that it is about to go through.

Our whole solar system is moving into a new area of space. The vibrations of your planet and its people are in the process of change. This does not only apply to your planet but rather to your whole solar system. Our planet is also going through a transition, but we know and understand what is happening and are preparing for the change. Your planet, by and large, is not aware of this great change and therefore is not prepared.

A great negative cloud encompasses planet Earth, an etheric cloud that has been created through the years by the negativity rising from your planet. Therefore, there are those from other planets who have come to help in every way that they can to ease this situation and to make the transition more orderly. Many things will happen that your people have not prepared for which will bring about great turmoil and panic. The transition is going to involve a much greater change than most of your people think or realize.

It is stated in your scriptures that your Earth will stagger like a drunkard in this change and that you will have a new Heaven and a new Earth. This, my friends, is literally true, for in the New Age yours will be a binary sun system and as the change takes place and this sun moves into your system, your whole solar system will change. The planets will shift to new locations around the magnetic center of your solar system. In fact, the magnetic center will change and you will have two suns. I should say we will have two suns because our planet is a part of your system and will be affected also. But we know what is going to happen and we are prepared and shall have no problems.

We are doing all that we can to help planet Earth in this transition. Many of your people will not be able to make the transition into the New Age for they have not evolved far enough to be able to live in the new vibration that our solar system will be exposed to. Those who remain with planet Earth in the New Age will also have a different physical body of a finer nature. They will have a greater brain capacity. They will be able to understand many things that they have not

been able to in your present civilization, for they have not had the capacity to do so.

A whole new world will open for those of planet Earth who have evolved enough to move into the New Age with their planet. They will live under Universal Law, not man-made laws. They will understand the importance of living by Universal Law and the importance of the Brotherhood of Man. They will understand why the Golden Rule, as you call it, must be lived if man is to survive. This has been the downfall of every civilization that has come and gone upon your planet. It is hoped that this will not creep in again in the new civilization that is to come.

There is much for Earth man to learn and accomplish. He will now have the capacity to do so. We of Planet Venus and those who have come from other planets in your system and from other systems are here to assist in the transition of planet Earth and our solar system. None will be lost. All will be taken care of and those who cannot qualify to move on with planet Earth will be taken to another solar system and placed upon a planet there that will suit their stage of evolution and they will be allowed to move on from there. All men must at one time or another reach the goal of mankind. I have said enough. It has been my pleasure and joy to again have this opportunity to speak to you. May the Blessings and Peace of all the Great Ones be invoked upon each of you at this time.

My Peace and my Love I leave with you.

**Oxal:** Oxal here. I wish to extend to each of you the Love, the Blessings, and the Understanding of my people. I hope you have enjoyed Mong-Ling's little talk.

May you go in Peace. ☸
