

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Oxal: Greetings in the light, I am Oxal. We have monitored your conversation here this evening and found your discussion quite interesting. The story of man, as you know him, is quite lengthy and complicated. You have spoken at some length of experience, and how it is necessary for man to experience and this my friends is true, for man cannot know without experience. I believe one of you expressed in somewhat this manner—correct me if I am wrong—that you should like to rise above the place of belief into a stage of knowing. Am I correct?

Questioner: Yes.

Oxal: Then, my friends, you must experience, for only through experience do you know. I could expound for hours on my experience, but this would not bring to you knowing, for to know is to experience.

Upon planet Earth are many, many teachings, religions, metaphysical teachings, occult teachings and what have you. Among each of these you find divisions. A teacher has sprung up, teaching from his experience. Now, beloved friends, I do not mean to convey the idea that this is completely wrong, for each of your religions, your teachings have truth. Each contains a segment of the whole, yet none that we have found have the complete truth, but each is found to be a stepping stone for those who are seeking. For as all men are at a different level of understanding, each must seek according to his understanding, to his capabilities to understand. Many people have found great help in each of these, yet, he who is a true seeker, sooner or later moves on to a higher truth. He seeks new experiences that will bring him new knowing and thus does life move ever onward, but man must go a step farther in his search for truth, he must also search and desire to serve. For though man gain all knowledge and serve not, his knowledge will avail him but little, and man shall find as he seeks and serves, that he shall move ever onward and upward on the spiral of understanding. Where the spiral ends, I know not. As we have stated before, it is of such great magnitude that our conception of it is only slight. Man reaches ever forward and onward attempting to gain these experiences.

There is some things that I should like to touch upon that perhaps might for some ease their anxiety. As man moves on through the process of evolution, he passes through many periods of experience. This life or existence which you are now passing through upon the planet you call Earth, is a most important experience upon this path and upon this plane are beings of a great wide variety of states of consciousness. To attempt to judge an entity by their expression in passing through this experience or series of experiences, would be most cruel. Many have passed through many lifetimes upon this planet, expressing and experiencing. Yet, in their present state they have no recollection what so ever of what has passed and this, beloved ones, is as it should be.

For if many of the people were to look back into their past lifetimes upon this planet, they would shrink in horror. Yet these experiences were very necessary for the evolution of the individuals. For when these experiences are gathered together in a state of consciousness where the entity is able to evaluate them properly, he will have a great knowing. The soul growth of any man cannot be determined by his expression upon this plane. Seek your experiences, beloved friends, where your inner consciousness guides you, for there will you find the experiences that you need.

And so I extend to you the love and the blessings from the Sons of Adoni.

I am Oxal. ✿
