

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Our group felt that they would like to share with you the following communication which we received from one of those beings of greater understanding, who are here to help us.

We hope that enough of us will, in some fashion, act in making our desires known to our government representatives, and that this action, along with sincere prayer and meditation, will alleviate the suffering now and in the days to come.

We thank you for your consideration of this and will appreciate any ideas or comments that you might like to share with us on the subjects discussed in the following communication.

January 29, 1977

Teacher: Today your nation is experiencing the ravages of nature as have some of the other nations on your planet in very recent times. This is only an example of the defenselessness of man against the ravages of nature. Man of Earth, with all of the technology that he has gained, still finds himself quite helpless in these cases.

Yet we are amazed at the way in which many of your peoples attempt to take advantage of their fellow man through these situations. In other cases it brings people closer together, it brings out the better side of man. We had hoped that this would be the case with all peoples but we do not find it so. Those who sit in positions of power often regard these situations as a way to line their own pockets.

Many of your people, as you know, are suffering greatly from these events, yet those who would attempt to bring relief are often bound by, what you call, Earth's red tape and delay after delay occurs while people suffer. This is not as it should be.

Your nation, to date, in these times, has not experienced as much suffering as have other parts of the world. Now it is coming to your nation. This will not be the end and from the situation that your nation is now in, there will be much more damage. The results will extend on through the year and everyone across your nation will be affected by the results of these events. For it is going to, in one way or another, cause

food shortages which means higher prices, which in your system will bring more suffering to those who do not have the wherewithal to purchase.

We would hope that these events would have some effect upon the awakening of your people, bring them into a greater realization of their responsibilities and their obligations to their fellow man. We would hope that it would bring people to a greater realization of their relationship to their Creator and to their fellow man. Your people have an opportunity here to do great things, to show their love and concern for those about them. What you call catastrophe is often man's opportunity if he will but take advantage of it. Man of Earth has much to learn in these fields.

A great amount of service is given to these things with little action. Few there are who have real love, real concern and real tolerance for their fellow beings, yet without this, man is only a little above the animal kingdom. Too long has man put self first, yet this has been the teaching by and large among Earth people. As I have said, we hope that some of these situations will bring man to a higher realization and will bring out the best in him. This remains to be seen.

Questioner: Do you think that the prayers for help and relief, given by some high public officials, will be fruitful?

Teacher: Prayers must be followed with action. Prayers are often given for show. Many of your politicians give lip service to these things but it is not in their hearts. If your people would sincerely turn to their Creator or the Great Spirit, in sincere prayer, believing and then acting, there would be great results.

Comment: We are so restricted by laws and the power-hungry people that it is difficult to know what action to take.

Teacher: Too long have your people waited to take action. Yet, action could still bring results and I do not mean violence, which only breeds violence. Man must make his desires felt and known by action, and action along with prayer and meditation by many people would bring results. But lack of this action is what has brought about the situations that you have today.

Questioner: Yet many people, who claim to have love and tolerance in their hearts for their fellow man, decry the actions, purposes and accomplishments of someone like Ralph Nader who is trying to eliminate injustices.

Perhaps the results of his actions have made these people feel that these actions have affected them in some way that they do not like. You see that is what so often happens and what is happening in your civilization today. Everyone wants to do something about everything that will affect everybody else but them, and when it affects them then they are not in favor of the action. You see this is a result of self as self says "not what is good for all, but what is good for me which brings about these situations."

Questioner: Would it be a good idea then to join an active consumers group or any group that is rightly acting to protect the individual by exposing and then trying to correct the injustices existing? How can you correct such situations that exist without exposing them? Someone must do this and the someone who does this is bound to be unloved by many.

Teacher: But we shall see if this suffering and hardship will soften the hearts of your people. And the hearts that need softening the most are those in the highest places of your civilization. So we shall see.

As I leave you I extend to each of you my love, my peace and my joy. May each of you, through the love that you develop within yourselves, find protection from these things that surround you. I invoke the love and the blessings of all our Great Ones. May you find peace in your hearts as you go forth and may this peace dominate your life now and ever more. ✿
