

Caveat: These communications are informative teaching instructions for those who seek to increase their understanding of themselves and the magnitude of the future lying before us all. These lectures are not of a religious nature but rather deal with the science of human potential and evolution. This document is a direct transcription from the original recording. Although it has been checked for obvious errors, it has not been finally edited.

Mantu: Greetings to you, my beloved ones.

I will identify myself to you as Mantu. I have been asked to speak to you for a few moments at this time.

First I will say that I am not from your galaxy, but rather I am a representative of a neighboring galaxy. I have come here as a representative in the Council of your galaxy. Many meetings or councils are being held now and will be held in the very near future to lay plans for the great activities and transitions about to take place in your galaxy. These changes will also have some effect upon the neighboring galaxies. So plans are being laid to do the necessary things during this transition in order that it might be as orderly as possible.

It is regrettable to us that the science of your nation is such that they have little or no understanding of the things to come. On our councils there are representatives of universal law. We have masters of the law as you have masters of the law, only yours are masters of civil law, whereas ours are Masters Of universal law. They have been trained in the interpretation and function of universal law and therefore they are important members of the council.

You see, we have those in our realms of life who are trained in special talents. We have our engineers, our lawyers, all of the sciences are covered and there are those who are specialists in each line.

The events to come are of a much greater magnitude than you realize. Great changes are to take place in your galaxies. The prophecies that were given in your ancient times have roughly described some of these things. But those who put these prophecies in writing were not able to describe them as they will really occur for you will really have a new heaven and new earth. The heavens will take on a new appearance there will be great changes in the locations of planets, of stars, of satellites. Therefore, as you gaze into the heavens, it will have an entirely new look.

Knowing and understanding what is to take place, we are making great preparations and we are using our scientific knowledge, our spiritual knowledge and our knowledge of the law to help in every way we can to

bring about this change in as orderly a manner as is possible. There is much that we can do to aid in this way.

You of Earth—or at least those who have been willing to listen, who have not turned a deaf ear—have been given information concerning these times and have been advised of certain preparations. But let me state also, that those of other planets and of other realms, who have a greater understanding of these things, are going to be at hand to help those who are of the Order. And those who are of the Order will receive help. They will receive help to the fullest extent that universal law will allow. Those who have been faithful to the Greater cause to the Greater light will find their peace and their joy.

But we also have to consider those who have not done so well. There are things that must be done for those who have not yet reached the point in their evolution where they can move into the fullness of His Light. So we must also prepare to take care of them and they will be cared for and will be given further opportunities in due time. So, you see, my dear ones, there is much to be done in these times, much preparation to be made and this is why I am here, why many others are here from other galaxies, from other parts of His vast estate. We are here to serve, to serve you and to serve humanity. It is in His service that we grow, for through service man is able to blossom forth into the fullness of his potentialities, to function as his Creator intended him to.

So, I say to you who are seekers of the Light, who are seeking to serve in behalf of the greater Light, I say to you:

Dedicate your entire being to this purpose and your rewards will be great. Not rewards as most of your civilization think of rewards but much greater rewards, rewards of the soul and of the spirit. There are no greater rewards than these.

I have stayed my time. It is my privilege to have had this opportunity to speak to you. It is my pleasure to have been in your presence.

May the love and the understanding of His Great Light be upon each of you at this time

In love I leave you. Bless you, each and everyone. I go.
